

Oakland and vicinity—Tonight and Wednesday fair, gentle winds, mostly westerly.

# STRIKE SETTLEMENT HELD UP; KEY CAR HITS AUTO, SIX DEAD

## COMPANY'S MANAGER TELLS MEDIATORS PLAN CANNOT BE ACCEPTED

Alberger's Reply Says Mens Former Refusal to Accept Arbitration Has Resulted in Loss of Confidence

Former Employees Are Advised to Return to Work and Rely on the Company's Future Sense of Justice

Directors of the San Francisco-Oakland Terminal Railways submitted to a session of arbitration conference at the city hall this afternoon a refusal to take back into their employ the striking platform men in a body or to make any guarantee to them of previous status. The company's statement is a reply to a letter addressed to it by the mayor and council, federal mediators and union officers and leaders.

This letter asked that the men be taken back in a body and their former positions assured them. This promise was asked as a preliminary to a submission of their demands to arbitration, they promising so to submit all of the demands they have made.

The company's reply, given by General Manager W. R. Alberger, is to the effect that the company has ceased to repose confidence in the employees, blaming this state of mind upon the men's former refusal of arbitration; that the company, in accordance with its announcement Sunday, has taken back to their previous status all the men it proposes so to receive; that it will not make the promise the federal and city officials and union officials ask; that it advises the men to return to work and rely upon the company's sense of justice in future dealings. In case they comply with the latter suggestion the company is willing to arbitrate.

When the reply had been submitted officials of the company explained that it was to be taken only as a refusal of the particular preliminaries to arbitration which the men had demanded. What the company's subsequent stand on arbitration would be, it was said, was a matter for the directors still to decide.

The letters to the company and the reply the company submitted this afternoon are as follows:

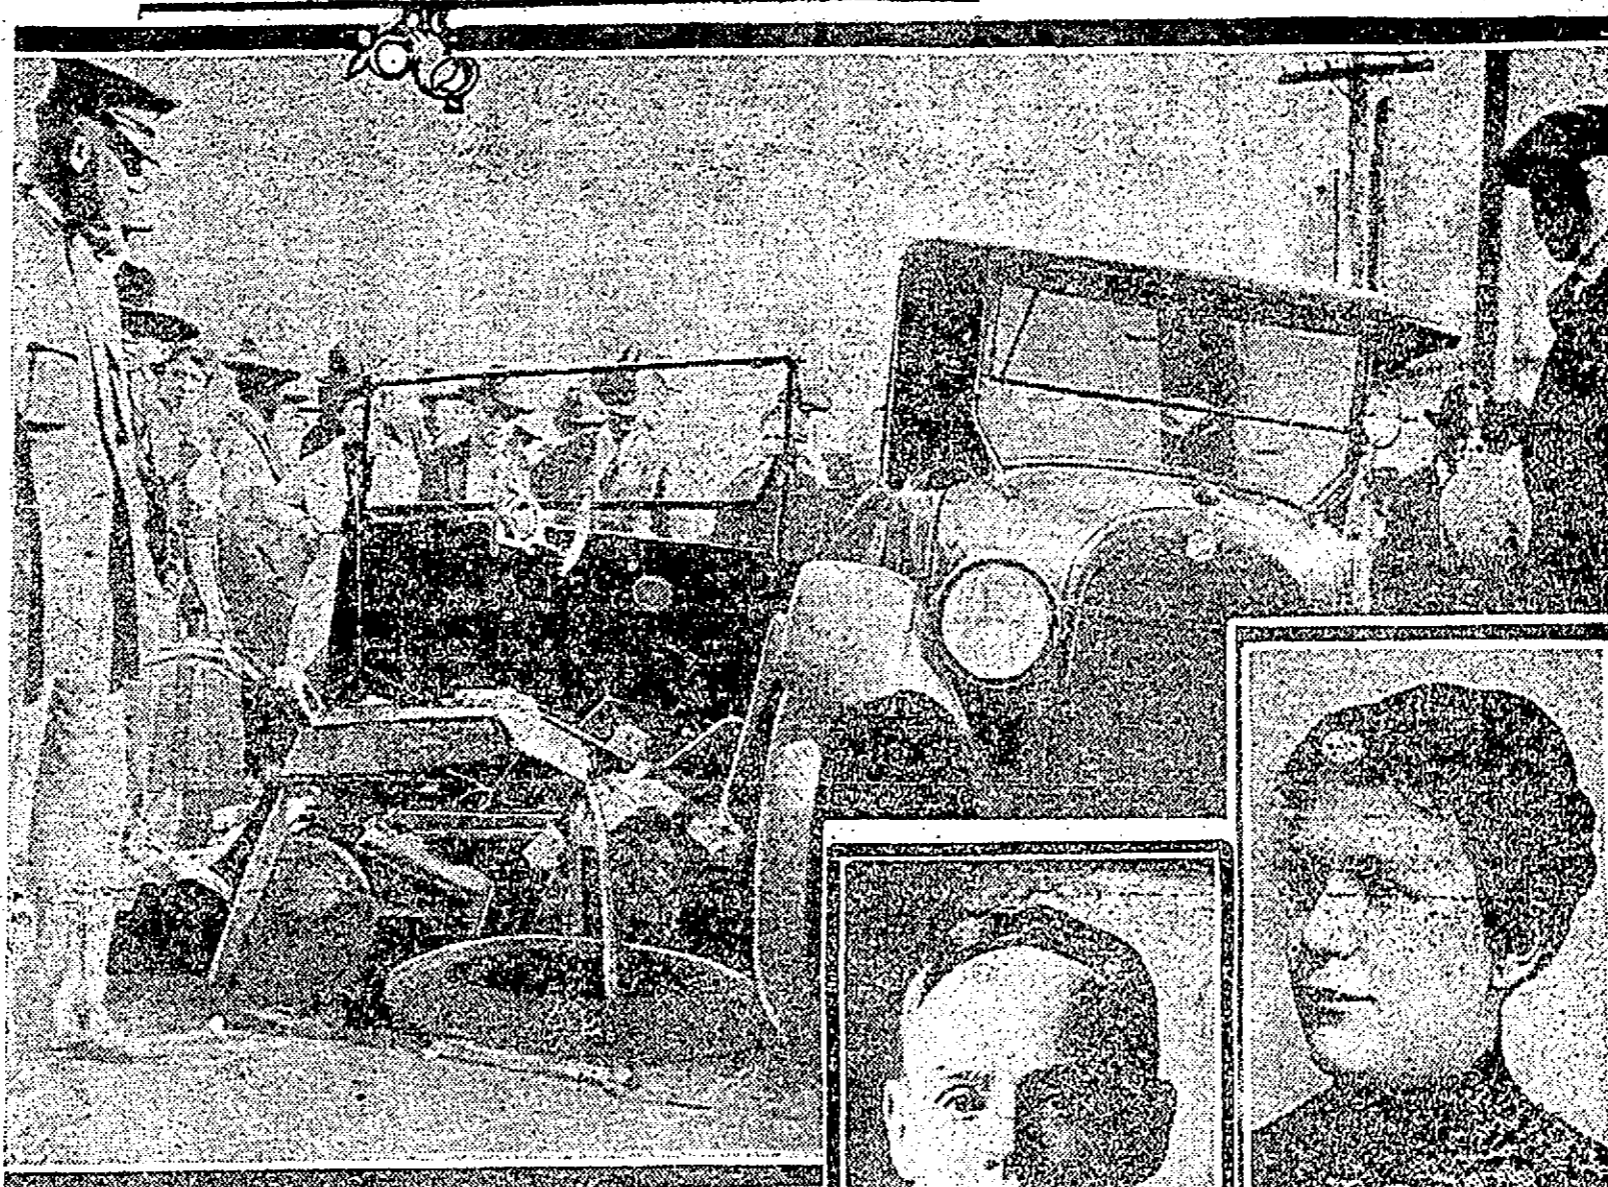

### THE LETTERS.

The company's letter to the company follows:  
To the Board of Directors, San Francisco-Oakland Terminal Railways, Oakland, California.  
Gentlemen:—The representatives of the Carmen's Union assure this committee that if we can secure a written assurance from the directors of the San Francisco and Oakland Terminal Railways that all men be restored to their former positions and rating and that contract relations be restored as before the strike, and that all their claims will then be immediately submitted to arbitration, they will recommend to their associates that the proposition be accepted and that the men return to work at once.  
John L. Davis, W. H. Edwards, Frederick Soderberg, Wm. J. Baccus, P. F. Morse, J. R. Miller, John P. Smith, Edgar H. Barber, James Traverser, Joseph B. Calmer, R. J. Marshall, Commissioner of Conciliation Department of Labor; Chas. T. Connell, Commissioner of Conciliation Department of Labor.  
Dated Oakland, Calif., October 6, 1919.

### THE COMPANY'S ANSWER.

The answer of the company to the board of mediation follows:  
Hon. John L. Davis, Hon. P. F. Morse, and others.  
Gentlemen:—We have your communication under date of October 6, 1919, in which you state the representatives of the Carmen's Union assure your committee that if you can secure a written assurance from the directors of our company that all men will be restored to their former positions and rating and that contract relations be restored as before the strike and that all their claims will then be immediately submitted to arbitration, they will recommend to their associates that the proposition be accepted and that the men return to work at once.  
The position of the board of directors of this company may be stated as follows:  
Since the offer of arbitration which the company made to the men in obedience to the provisions of the contract theretofore entered into with them was rejected, the strike by the men has entirely changed the situation. The confidence which the men had in their good faith in making and keeping their contracts has been destroyed. Our belief that they would at

Wreck of automobile struck by Key Route train at Claremont and College avenues, this morning, when five persons were killed and others hurt. The TRIBUNE photograph shows the smashed car as it, in turn, struck another machine. Inset, Miss Alcy E. Case, one of the dead and Walter Von Manderschied (photo by McCullagh) paying teller of the Oakland Bank of Savings, who died of his injuries.

## Unions Demand Council Recall Car Guards Ordered Disarmed Ban Placed on Green Trainmen

Resolutions were adopted last night by the Alameda and Contra Costa Counties Metal Trades' Council, demanding a recall of the entire city administration on the grounds of alleged incompetencies shown during the present strike. Recommendations were made to the Central Labor Council that similar action be taken and the Building Trades' Council meeting tonight, has been asked to co-operate also.

Union officials today issued instructions that all metal trades workers register immediately for a recall election, which, they say, will be called as soon as preparations can be made. In answer to the editorial Secretary John Morgenthau said today:

"This recall election, which we plan, is for the general public good. Officials, who allow degenerates, ex-convicts and professional thugs to ride on street cars with guns, endangering the lives of the people, are deserving of nothing better than a recall."

Our plans are in a good state of formulation and we have already asked the Building Trades and the Central Labor Council to co-operate with us.  
MEN INSTRUCTED TO REGISTER FOR ELECTION.  
"Our men have been given instructions to register for an election—if they haven't already registered. We are determined to see this thing through."

Chief Lynch was criticized for his efforts in upholding the law, it being charged that it was "undignified" for him to personally direct his men in putting down rioting. On receipt of the above resolutions Commissioner Morse today issued an order prohibiting guards on streets cars from being armed as a protection against violence. The order is as follows:  
I am informed that the San Francisco-Oakland Terminal Railway Company is placing armed guards upon their street cars in

(Continued on Page 2, Col. 4)

## Injunction Was Ignored, Claim Strikers' Arrest Is Being Sought Twenty May Face U. S. Court

Application will be made late today to the federal court in San Francisco for more than a score of citations directed against striking street carmen in Oakland, demanding that they be compelled to show cause why they should not be arrested and punished for ignoring an injunction issued by the United States district court restraining them from making any effort to hinder the operation of street cars in the Eastbay district.

United States Marshal James Holohan stated he had been authorized to take any official action in connection with the strike, but that he was prepared to act immediately when empowered to do so. The citations are to be placed in the hands of Marshal Holohan for federal court and also of having violated one or more provisions of the temporary restraining order, which covered practically every possible phase of possible violence or illegal action in connection with efforts to stop or hinder street car traffic in Oakland, Alameda and Berkeley.

## MAYOR ISSUES STRIKE ORDER TO PATROLMEN

Not to be outdone by Commissioner Morse Mayor Davis today issued a proclamation dealing with the riots that took place in this city yesterday and demanding that all protection be removed from cars that are operated. He also criticizes the issuance of a federal injunction and hints at his intention to take control of the police department. "The statement contains no word of condemnation for the street rioters, all blame being charged to the guards in the cars. The mayor's statement follows:

Oakland, Cal., Oct. 7, 1919.  
To the Officials of the Street Railway Company and to the People of Oakland:

The recent developments in the strike situation demand immediate action. The shooting of innocent bystanders, the open carrying of weapons upon public conveyances over the streets of this city must be stopped.

The street cars have been operated in the past few days in "test runs" under authority granted by an injunction issued under a war time act. As the mayor of the City of Oakland, I cannot conceive, however, that any war time construction of laws and restraining orders permit the lawless carrying and using of weapons in a civilized community.

While it is beyond the power of municipal authorities to immediately straighten out the various differences underlying strike conditions which are generally based upon economic problems, the people of our city, tending to their own business in a peaceful, true American manner, must be protected at all costs.

This serious condition has come upon the city very suddenly, and our police force, with its limited number of men, has done its utmost to maintain law and order. But greater than the need for additional men is the immediate dis-

(Continued on Page 2, Col. 5)

## REDS BEATEN BY CHICAGO SOX IN AN EXTRA INNING

By FRANK G. MENKE, International News Service Staff Correspondent.

REDLAND FIELD, CINCINNATI, Ohio, Oct. 7.—The White Sox whipped the Reds today, 5 to 4, and the world's series is prolonged. Chick Gandil's single in the tenth inning scored Buck Weaver from third and gave the White Sox another chance to win the highest honors of baseball.

The loss of the game is really chargeable to Larry Kopf and Pat Duncan. They performed an "Alphonse and Gaston" act in the sixth inning and as a result Weaver did, which should have been an out, was transformed into a two-base hit. The Sox were three runs behind at the time and, taking advantage of the "dunk," they rallied their way into a tie in that session. Hitt by Jackson, Felsch and Schalk sent three runs across the plate in the sixth—and made it four-all. The game was the most thrilling of the series—and it certainly was the most weird. There were errors of hand, of feet and of head. Batters followed each other in almost unending succession and it became evident that the team which would win would be the one that executed the fewer.

"Dutch" Reuther started for the Reds, but the star southpaw was driven from the mound in the sixth. All during his appearance he was wild and not very effective. Little Dick Kerr performed the hurling chores for the Sox and his work, although spotted by ineffectiveness, was on the whole fairly good.

The Reds scored two runs in the fourth and two more in the fifth. They had several other scoring chances, but seemingly tossed them away, figuring that their lead would not be overcome.

Chicago—J. Collins up, "Ball one." (Continued on Page 8, Col. 2.)

## SPEEDING TRAIN HITS AUTO; SIX ARE KILLED; ONE IS BELIEVED DYING

Brakes Tamped With, Is Answer From Company to Charge That Car Crew Failed to Slow Down

Claremont and College Ave. Corner Scene of Fatality—Victims Are Dragged Distance of 150 Feet

Six persons were killed and one was injured fatally, when a westbound Key Route train, running on Claremont avenue at a high rate of speed, according to several eye-witnesses, smashed into an automobile carrying seven persons at College avenue shortly before 9 o'clock this morning. The machine was dragged for 150 feet, a mass of twisted iron, broken wood and mangled bodies. The train, its air-brake coupling smashed by the collision, went 1000 feet further before it stopped, and then only temporarily.

The smashed car was hurled first against another machine traveling in the same direction, but which proceeded on its way a few minutes later, only slightly damaged. It brought up against a third car which was also damaged. The list of dead and injured is as follows:

THE DEAD  
A. MARKLEY, shipworker.  
J. A. BORUM, 2704 Derby street, Berkeley, retired rancher.  
RAYMOND WHITE, a student, 2941 Linden avenue.  
ALCY E. CASE, 2417 Bancroft way, Berkeley.  
WALTER VON MANDERSCHIED, teller at Oakland Bank of Savings, 3012 College avenue; fractured skull.  
FRANCIS RICHARDSON WALL, attorney of San Francisco, living at Berkeley Inn, Telegraph and Haste street.  
INJURED, PROBABLY FATALITY  
ERMA WARNER, 19 Dornidera avenue, Piedmont; three fractured ribs, fractured knee, internal injuries, severe concussion.

### BRAKES TAMPED WITH SAYS COMPANY MANAGER

W. R. Alberger, general manager of the company, made a statement in which he asserted that the brakes on the car had been tampered with.  
"One of the company's best inspectors was on the car," said Alberger, "and when the brakes refused to work as the motorman tried to stop the car at the station, the inspector ran to the rear of the train to see what was the trouble. As soon as it was discovered that the brakes would not work, the reverse electric current was used to bring the car to a stop."

Alberger said that the use of the reverse current probably caused the flames and smoke that several witnesses of the accident noticed as the car was approaching College avenue.

### TRAIN FAILS TO STOP BEFORE REACHING CROSSING

The Key Route train failed to make the usual check stop on the east side of College avenue, as is required by the rules of the company. These demand that it slow down at that point to four miles an hour. According to Mrs. M. Rubin of 6202 College avenue, who was standing at this corner, the train was proceeding at an extremely rapid pace with the motorman apparently attempting to slow it down.

As the train crossed College avenue it struck the machine, a large car, squarely on the side, the machine being southbound toward Oakland. The machine was smashed into fragments ahead of the train, which finally, the high speed but slightly decreased, hurled it off to the left where it fell against the other automobile.

### WRECKAGE OF AUTO STREWN ALONG TRACK FOR 150 FEET

One of the passengers of the car was thrown to the street, another fell half way out of the machine and was dragged, hanging head down across its step. The others were pinned between various portions of the machine and crushed to death or almost to the point thereof. One wheel of the car was carried by the train almost to where the latter finally came to a stop. The wreckage of the car, in some half a hundred different portions, strewn the 150 feet from the corner to where it was finally, with its human contents, pitched off the tracks.

To the west of College avenue thirty feet is the College avenue station of the Key Route line. Here the Claremont trains are supposed to come to a full stop, the check-stop on the opposite side of the street being designed not only to protect College avenue traffic, but to permit this full stop more easily to be negotiated. The train, according to persons in stores on the other side of the street, had

(Continued on Page 10, Col. 1.)

## Company Replies on Arbitration Directors Act on Mediation Offer

(Continued from Page 1)

With trains running on three Key Route lines, but no street cars moved up to 1 o'clock, despite various reports that they would be sent out again this afternoon. Efforts to terminate by arbitration the strike of the 1150 platform men of the San Francisco-Oakland Terminal Railroad continued through the day.

A fairly uniform service was maintained on the three Key Route lines and, in general, without trouble from strikers or strike sympathizers. Two guards on the Twenty-second street line were arrested early in the forenoon for carrying concealed weapons. Later in the day, under council orders, Chief of Police J. F. Lynch's men began relieving all of the strike-breaker guards of their weapons.

Manager Alberger and Attorney M. C. Chapman called on Commissioner Morse shortly after noon and protested the order that no armed men shall handle the street cars. Commissioner Morse said that the police would protect life and property. He refused to place policemen on the platforms of the cars.

### RECALL OF CITY OFFICIALS ASKED BY LABOR UNIONS

Resolutions demanding the recall of the city administration upon officials for alleged incompetency in handling the strike situation were adopted by the Alameda and Contra Costa County Metal Trades Association and a similar recommendation made by the Central Labor Council. The Building Trades Council will consider the resolution tonight. The Bay Cities Central Trades Council adopted resolutions protesting the use of armed guards on the cars. The Central Labor Council assessed the members of its subsidiary organizations each \$1 a week at a meeting last evening. According to the secretary of the council, William A. Spooner, this will furnish a fund of upwards of \$40,000 a week.

### EMERGENCY ORDINANCES REGULATE QUALIFICATIONS

The city council this morning passed an emergency ordinance making it a misdemeanor for any man with less than ten days' instruction to run a street car or train within the city limits. It was also made a misdemeanor to employ such an untrained man for such work. The Berkeley city council passed an emergency ordinance requiring a physical and mental examination, to be given by a special psychopathic board, as a prerequisite to the issuance of a permit to the crew of a street car.

The two strikebreakers arrested at Twenty-second and Broadway were taken into custody by Corporal John Maney. Each man carried a 38-caliber revolver. They were booked for carrying concealed deadly weapons. Bland gave his occupation as "gunman" to the desk sergeant when he was booked at the city prison. He is 22 years of age. "Key Route Pier" was the only residence which he would give.

### ADVISED NOT TO RUN ANY CARS DOWNTOWN

By 1 o'clock this afternoon no cars had appeared on the streets. The business section of the city, many blocks of which were filled by rioting crowds yesterday, were kept practically free of stationary persons this morning. At 1 o'clock no street cars had appeared, and it was understood that suggestions had been made to the company by the police that they be not run today. Up to that hour, also, the train of strikebreakers which arrived from the Key Route mole to the central barns the men who manned yesterday's cars had not brought them back for today's runs.

General Manager Alberger stated shortly before noon that he did not know when an attempt to move other street cars would be made.

Counsel for the company planned to ask the federal court today for citations compelling the attendance upon the court of officials and other members of the striking union to answer to complaints of contempt of court. It is alleged by company attorneys that the interference with the cars yesterday violates the federal temporary injunction issued by Judge Van Fleet and returnable next Friday.

After members of the city council, representatives of the street car union, and Federal Mediators E. P. Marsh and T. C. Connell had waited three hours in the offices of Mayor John L. Davis today, the conference, at which a settlement of the street car strike is under discussion, was postponed, at noon today, at the request of Alberger.

After an extended meeting last night a proposal for settlement of the strike, by arbitration of certain points, the men in the meantime returning to work, was carried away by Alberger with the understanding that he would place it before the car company directors this morning and immediately report back to the waiting conference in the city hall. At the city hall today there were gathered the two federal mediators, Joseph E. Caine, representing the Chamber of Commerce; members of the council and Mayor Davis. To-

gether with labor representatives. Finally the councilmen left to attend the council session at 11 o'clock, and then returned again to the mayor's office. Shortly before noon Alberger's request came for a postponement.

At 2 o'clock the session reconvened when the company's representatives were present and its answer to the strikers was delivered.

## WOMAN BADLY BURNED WHEN 'GAS' EXPLODES

A gasoline explosion at 1531 Grand avenue last night, resulted in serious burns to Mrs. P. E. Kurman and a fire which partially destroyed the home, calling the Piedmont police department to the scene. Mrs. Kurman was cleaning a silk gown with gasoline when the accident occurred. A short circuit in the electric iron which she was using is thought to have set off the can of gasoline.

### Arizona Town Wiped Out by Cloudburst

By Associated Press  
LEAVENWORTH, Oct. 7.—Quartzsite, a little town in the extreme northern end of Yuma county, was wiped out by a cloudburst last Thursday night, according to refugees who arrived here today.

Those who were lost, the refugees reported, but every building in town, including the general store and post office, two garages and a hotel were carried away. The only building left standing, it is reported, was the school house.

Those arriving here declared that those living in the town, about 150 persons, were crowded into the school house and that food was running low. Food, tents and other supplies were rushed north from Yuma last night.

### Crowder Objects to Freeing Service Men

By International News Service  
WASHINGTON, Oct. 7.—General Crowder, now for service men convicted during the war by courts-martial, would be a general release in the event of future wars. This is the opinion of Major-General Crowder, judge advocate of the army, in which Secretary of War Woodrow Wilson, according to a letter addressed by the secretary today to Senator Wadsworth, chairman of the military affairs committee of the Senate.

### Oil Steamer Runs Ashore in North

By International News Service  
SEATTLE, Oct. 7.—The steamer Dilwyl, bound for Point Belley to San Pedro, is ashore at Point Belley, according to advices to the Merchants' Exchange today. The tug Polaris has gone to her assistance. The Dilwyl is a shipping board steamer under charter to the Standard Oil company. She was built by the Union Iron Works of San Francisco and launched June 29, this year.

### Bakery Auto and Touring Car Crash

Two automobiles, one a large bakery delivery wagon owned by the Remer Bakery Company, and the other a touring car, the property of C. A. Edwards of Berkeley, crashed together today at the junction of Harrison boulevard and Broadway. The bakery wagon was overturned and badly wrecked. Neither driver was injured. C. Rossi was the driver of the bakery wagon.

### Missing Child Is Sought by Police

Disappearing early this morning from her home, Bernice Murphy, 12 years old, is being sought today by the Oakland police as a result of a plea for aid from her parents, who reside at 1008 East Twenty-third street. The little girl is four feet high, weighs about ninety pounds, has black hair, blue eyes and dark complexion. She was attired in a tan middie blouse trimmed in red and a red and brown plaid skirt.

### Eleven Killed When Rebels Derail Train

WASHINGTON, Oct. 7.—Eleven persons were killed and eighteen injured when a passenger train was derailed by rebel forces at Oro, Mexico, thirty-five miles from Saltillo, Sunday morning, the state department was advised this afternoon. None of those killed were foreigners.

### American Ships to Leave Spalato

ROME, Oct. 7.—(By the Associated Press).—Rear Admiral Philip Andrews, in command of the American squadron, has issued orders for the withdrawal of the American ships from Spalato. American food supplies are being removed from the city.

For Sale by The Owl Drug Co.

## AIM ORDINANCE AT INEXPERIENCED CAR MOTORMEN

The meeting yesterday consumed several hours. The street car company officials met with the committee first, the councilmen second, and they would not attend the session unless an eight-hour day were granted in advance.

After the street car officials had left the conference in the mayor's office in the city hall the councilmen held a conference with the committee and the entire session was then adjourned to today.

### Armed Guards Not Needed, Says Lynch

The conference was arranged by Joseph E. Caine of the Chamber of Commerce, and three sessions have been held. In the first two the carmen and street car company officials, together with representatives of the city government and Chamber of Commerce, met together. Yesterday, the strike excitement, the union men refused to attend the session while the street car officials were in the committee room, sending an ultimatum that they would appear only if the eight-hour day were granted in advance.

Orders to guards on street cars to avoid the use of firearms were issued today by Chief of Police J. Lynch, who stated that any employment of the street car company committing acts of violence will be dealt with summarily and that the police will enforce the law impartially, punishing any who break the law, strike-breakers or strikers.

Lynch's statement followed: "The police will protect the public. We do not need the assistance of armed gunmen. When we want assistance we know where to ask for it."

"The police department is in entire control of the situation. Mob violence will not be countenanced. The officers have been given instructions to prevent any further disturbances with the necessary force. No favoritism. We have placed the eight company guards under arrest, just as we picked up the men in the mob for it."

"Every officer will do his duty."

### Drivers Asked to 'Pick Up' Carriers

Automobiles have been requested to give mail carriers a lift so that they may be enabled to reach their points of distribution without loss of time as a result of the street car tie-up. It has been a difficult task for the postoffice officials to distribute carriers from the various stations to different parts of the city.

It has been a difficult task for the postoffice officials to distribute carriers from the various stations to different parts of the city.

### COUNCIL RECALL NOW DEMANDED

(Continued from Page 1)

the city. This conduct is reprehensible and unlawful. Employees of the street car company have no more right to carry firearms upon the cars than citizens have to carry guns in the streets of the city. It is well known to everyone that these weapons are being carried for the purpose of being used in a threatening manner against the strikers. I direct you to prohibit the carrying of firearms in this city by any person other than the duly sworn officers of the law. By this direction I mean that the restraining order and provisions of the penal code must be rigidly enforced.

Yours truly,

Commissioner S. F. MORSE, of Public Health and Safety.

Acting upon the orders issued to him by Commissioner P. F. Morse, Chief of Police J. F. Lynch began the disarming of guards on the street cars being run by the San Francisco-Oakland Terminal Railroad. The council also adopted an emergency ordinance making it a misdemeanor for any one to operate a street car before having had ten days' instruction.

EXPERIENCED MEN ON CARS REQUIRED. This ordinance will be in effect for eight days. It provides a six months' jail penalty for green hands operating street cars and for employing such men for such a purpose.

BERKELEY, Oct. 7.—As a direct result of the Key Route accident this morning at Alameda and College avenues, the Berkeley city council today passed an emergency ordinance making it incumbent on all motormen of local traction or interurban lines to pass a municipal physical and mental test before they be allowed to operate cars.

The council will hold a special meeting Thursday at which time official adoption of the ordinance, which will be made a part of the city's laws, will be made. Plans of the city legislators call for permanence of the ordinance, and it is planned to establish a special clinic for examination of motormen in the future. A maximum fine of \$300 or three months in the city prison are the alternative penalties attached.

Mayor Louis Bartlett introduced the resolution calling for the ordinance's establishment. It was passed unanimously by the council.

Examination of all motormen will be carried on in the future, according to the ordinance, by a special psychopathic clinic, over which the police department will have direct control. The chief of police, Commissioner of Public Health and Safety C. D. Haywood and a medical psychologist of experience will be appointed on the examining board. Dr. Jan Don Ball will undoubtedly be selected. It was said today in the council chamber.

Following a successful test, a motorman will get from the city of Berkeley a permit to operate cars for one year. On the expiration of this period the platform workers will be compelled, under the ordinance, to pass a new test.

### Fertilizer Plant In Baltimore Burns

BALTIMORE, Oct. 7.—The plant of the Standard Fertilizer Company at Court Bay, a suburb, was completely destroyed by fire of undetermined origin today and two negro workmen lost their lives. An official of the company estimated the loss at \$500,000.

## AIM ORDINANCE AT INEXPERIENCED CAR MOTORMEN

An ordinance, forbidding the employment of inexperienced men as motormen on any street car or electric train, was passed to print today under emergency proceedings by the city council, to take effect within eight days. Pending the taking effect of the ordinance the police, under a resolution adopted by the council at the suggestion of Commissioner William J. Baucus, will disarm guards and carmen unless they are experienced men at the controllers of cars. This action by the council followed today's Key Route accident.

The new ordinance, drawn up by Commissioner of Public Health and Safety P. F. Morse, provides a six months' jail sentence, or \$500 fine, or both, for any man operating a car who has not previously had ten days' instruction by a teacher of more than six months' experience on the line run over. The ordinance also provides for similar punishment for the employer of an inexperienced man to operate a car.

### ORDERS ISSUED TO CHIEF LYNCH

Morse presented the ordinance, together with a letter of instructions to Chief of Police J. F. Lynch, to immediately disarm all car guards and anyone on the streets carrying arms without a police order. Following the council meeting, Lynch ordered the disarming of the motormen and conductors upon the cars after the disarming order was issued, was refused by Chief Lynch, pending the conference with Commissioner Morse.

Morse's statement regarding the new "green hands" ordinance passed by the council is as follows: "It appears that the San Francisco-Oakland Terminal Railroad Company is placing inexperienced motormen and conductors upon its cars, posing a serious danger to the public. Not only does such inexperience arise from lack of previous apprenticeship or knowledge of the employment, but also arises from lack of familiarity with the streets of this city. As a result, an occasional street car or Key Route car is being run in direct violation of the laws and ordinances of this city."

### CITIES FATAL ACCIDENT TODAY.

"Such disregard of the laws and ordinances of this city must be stopped and I have so directed the chief of police. If cars are found running at excessive speeds or otherwise violating the ordinances of the city the chief of police is directed to arrest all persons so offending."

"In order to prevent accidents resulting from inexperience, I enclose herewith for your consideration an ordinance prohibiting men from operating street cars who have not had previous experience in street car operation, and who are not familiar with the street car lines of this city."

## MAYOR ISSUES STRIKE EDICT

(Continued from Page 1)

ment of the so-called "imperial" strike breaker being the protection of a public service corporation and a restraining order under Federal authority, ride up and down our streets pointing weapons at innocent bystanders, and then recklessly and excitedly shooting into a crowd.

Only in times of riot and tumult is the mayor given control of the police. The unfortunate rioting upon our streets yesterday is sufficient to establish the existence of a condition of lawlessness, and action in accordance with the duty imposed upon me, therefore, publicly call upon all authorities upon whom the responsibility rests to proceed immediately to disarm all men carrying weapons without a permit from the chief of police.

This proclamation is given in no spirit of hysteria, but the killing and maiming which are an outrageous occurrence which cannot and will not be tolerated in this or any other American community, and when the lives and happiness of innocent bystanders are in order looking toward their protection can be too drastic.

Very truly yours,  
JOHN L. DAVIS,  
Mayor of the City of Oakland.

## WOMEN SHOULD SHED UNIFORMS, IS BRITISH VIEW

LONDON, Oct. 7.—Woman in uniform is being made the butt of much criticism throughout England. "It is a noble of her to get into it—and now she ought to get out on the double-quick," is a commentary by one critic which may be taken as representative of widespread opinion.

Restoration of women to their normal sphere and reinstatement of ex-service men in their old positions are urged as reasons for the elimination of uniformed women from public service and welfare organizations.

## CARE URGED FOR DRIVERS, PEDESTRIANS

Closely following the fatal accident at Claremont and College avenues, it was urged to motorists and pedestrians to guard their lives and lives of their passengers by strict observance of traffic rules and by using the utmost care during the street car strike, while congested traffic conditions prevail, was issued today by Coroner Grant D. Miller.

Coroner Miller lays stress on directions to automobile drivers, in the latter, which is as follows:

"To the Public—Automobile and traffic accidents have occurred with startling frequency since October 1. It is your duty to help prevent further accidents. Until street car operation is resumed, citizens should exercise unusual care and should give thoughtful consideration to the necessities and rights of others.

"Pedestrians should cross streets at intersections only, looking first to the left, and before passing the center of the street to the right. Wait until the street is clear before proceeding. Under no circumstances cross the street in the middle of the block, or diagonally at street crossings. Go slow, do not run to get ahead of approaching automobiles. Keep children off the streets as much as possible.

"Autolists should drive cautiously and slowly with strict observance of traffic rules. Do not fail to signal at a stop or a turn by waving your hand. Sound your horn when necessary and only when necessary. Slow down at street intersections and track crossings. Drive straight—do not swerve only swerve from your path to avoid a minor obstruction or slight defect in the pavement, but slow down for the left; otherwise you may cause an accident to machines following you.

"The driver of an automobile should realize that he is responsible for the safety of others riding in his car, as well as for the pedestrian. At this time exercise unusual care, that the lives of your passengers may be secure.

"Do not swing wildly to the wrong side of the street to pick up a pedestrian. If the person on foot wishes a ride he should be on the right hand side of the street in the direction he is traveling and should indicate his wish for a ride by walking or standing near the curb.

"GRANT D. MILLER,  
"Coroner."

## Chief Lynch Called From Strike Duty

Subpoena from the superior court took from the command of the Central station Chief of Police J. F. Lynch and Captain Charles H. Bock. When they were summoned this morning to testify in the trial of J. H. Nedderman, former chief, Captain of Inspectors Walter J. Petersen was placed in the chief's chair by Lynch during the latter's absence.

Lynch will be before the superior court again tomorrow morning at 10 o'clock, according to statements made to him today by court officers, the result being that lieutenants and sergeants must take charge of affairs during the time he is testifying, and Bock is held in court. There is only one captain on duty, Captain Thorvald Brown, Captain William L. Woods being wounded and Bock in court.

Lynch has made a demand on Commissioner F. P. Morse for a hundred more men, stating that without these the police force cannot possibly cope with the present situation if the cars continue to operate.

Morse will take up the matter at once with the city council. It was announced today. Lynch had asked for a hundred new men in the last budget, but this item was "pruned" by Commissioner Edwards on the ground that "with the arrival of prohibition there would not be any need of policemen."

## Court Injunction Violation Charged

Charges of violation of section 1674 of the United States compiled statutes, or disobedience of a federal court injunction, will be lodged against the prisoners arrested in the Saturday riots when street cars first started running after the strike. Three of the prisoners were freed today on \$500 bail each following the issuance of habeas corpus writs by Superior Judge James G. Quinn. The other three are being held for the federal marshal, who is expected to take them to San Francisco before tonight. Those out on bail are Chris Dickson, Billy Clark and C. S. Crockett, shipworkers. The men still in prison are Pat Cronin, Lionel Anderson and Richard Williams.

Eight strike breakers arrested yesterday by Captain of Inspectors Walter J. Petersen when found to carry weapons, are still held in the city prison, while detectives are questioning witnesses to the various shootings of yesterday. All men ing will be charged with carrying a deadly weapon; the remainder will be charged with disturbing the peace and will be placed on the books against the men tomorrow, according to Captain Petersen. The prisoners arrested at the Central car barns as having carried weapons are: Paul G. Colton, Los Angeles; George R. Douglas, Los Angeles; Harry Henley, Arkansas; Charles Coffey, Los Angeles; George Steele, Los Angeles; James Marshall, Los Angeles; John Fernandez and Joe Goodman. All are youths under 25, and all were brought from Los Angeles as strike breakers.

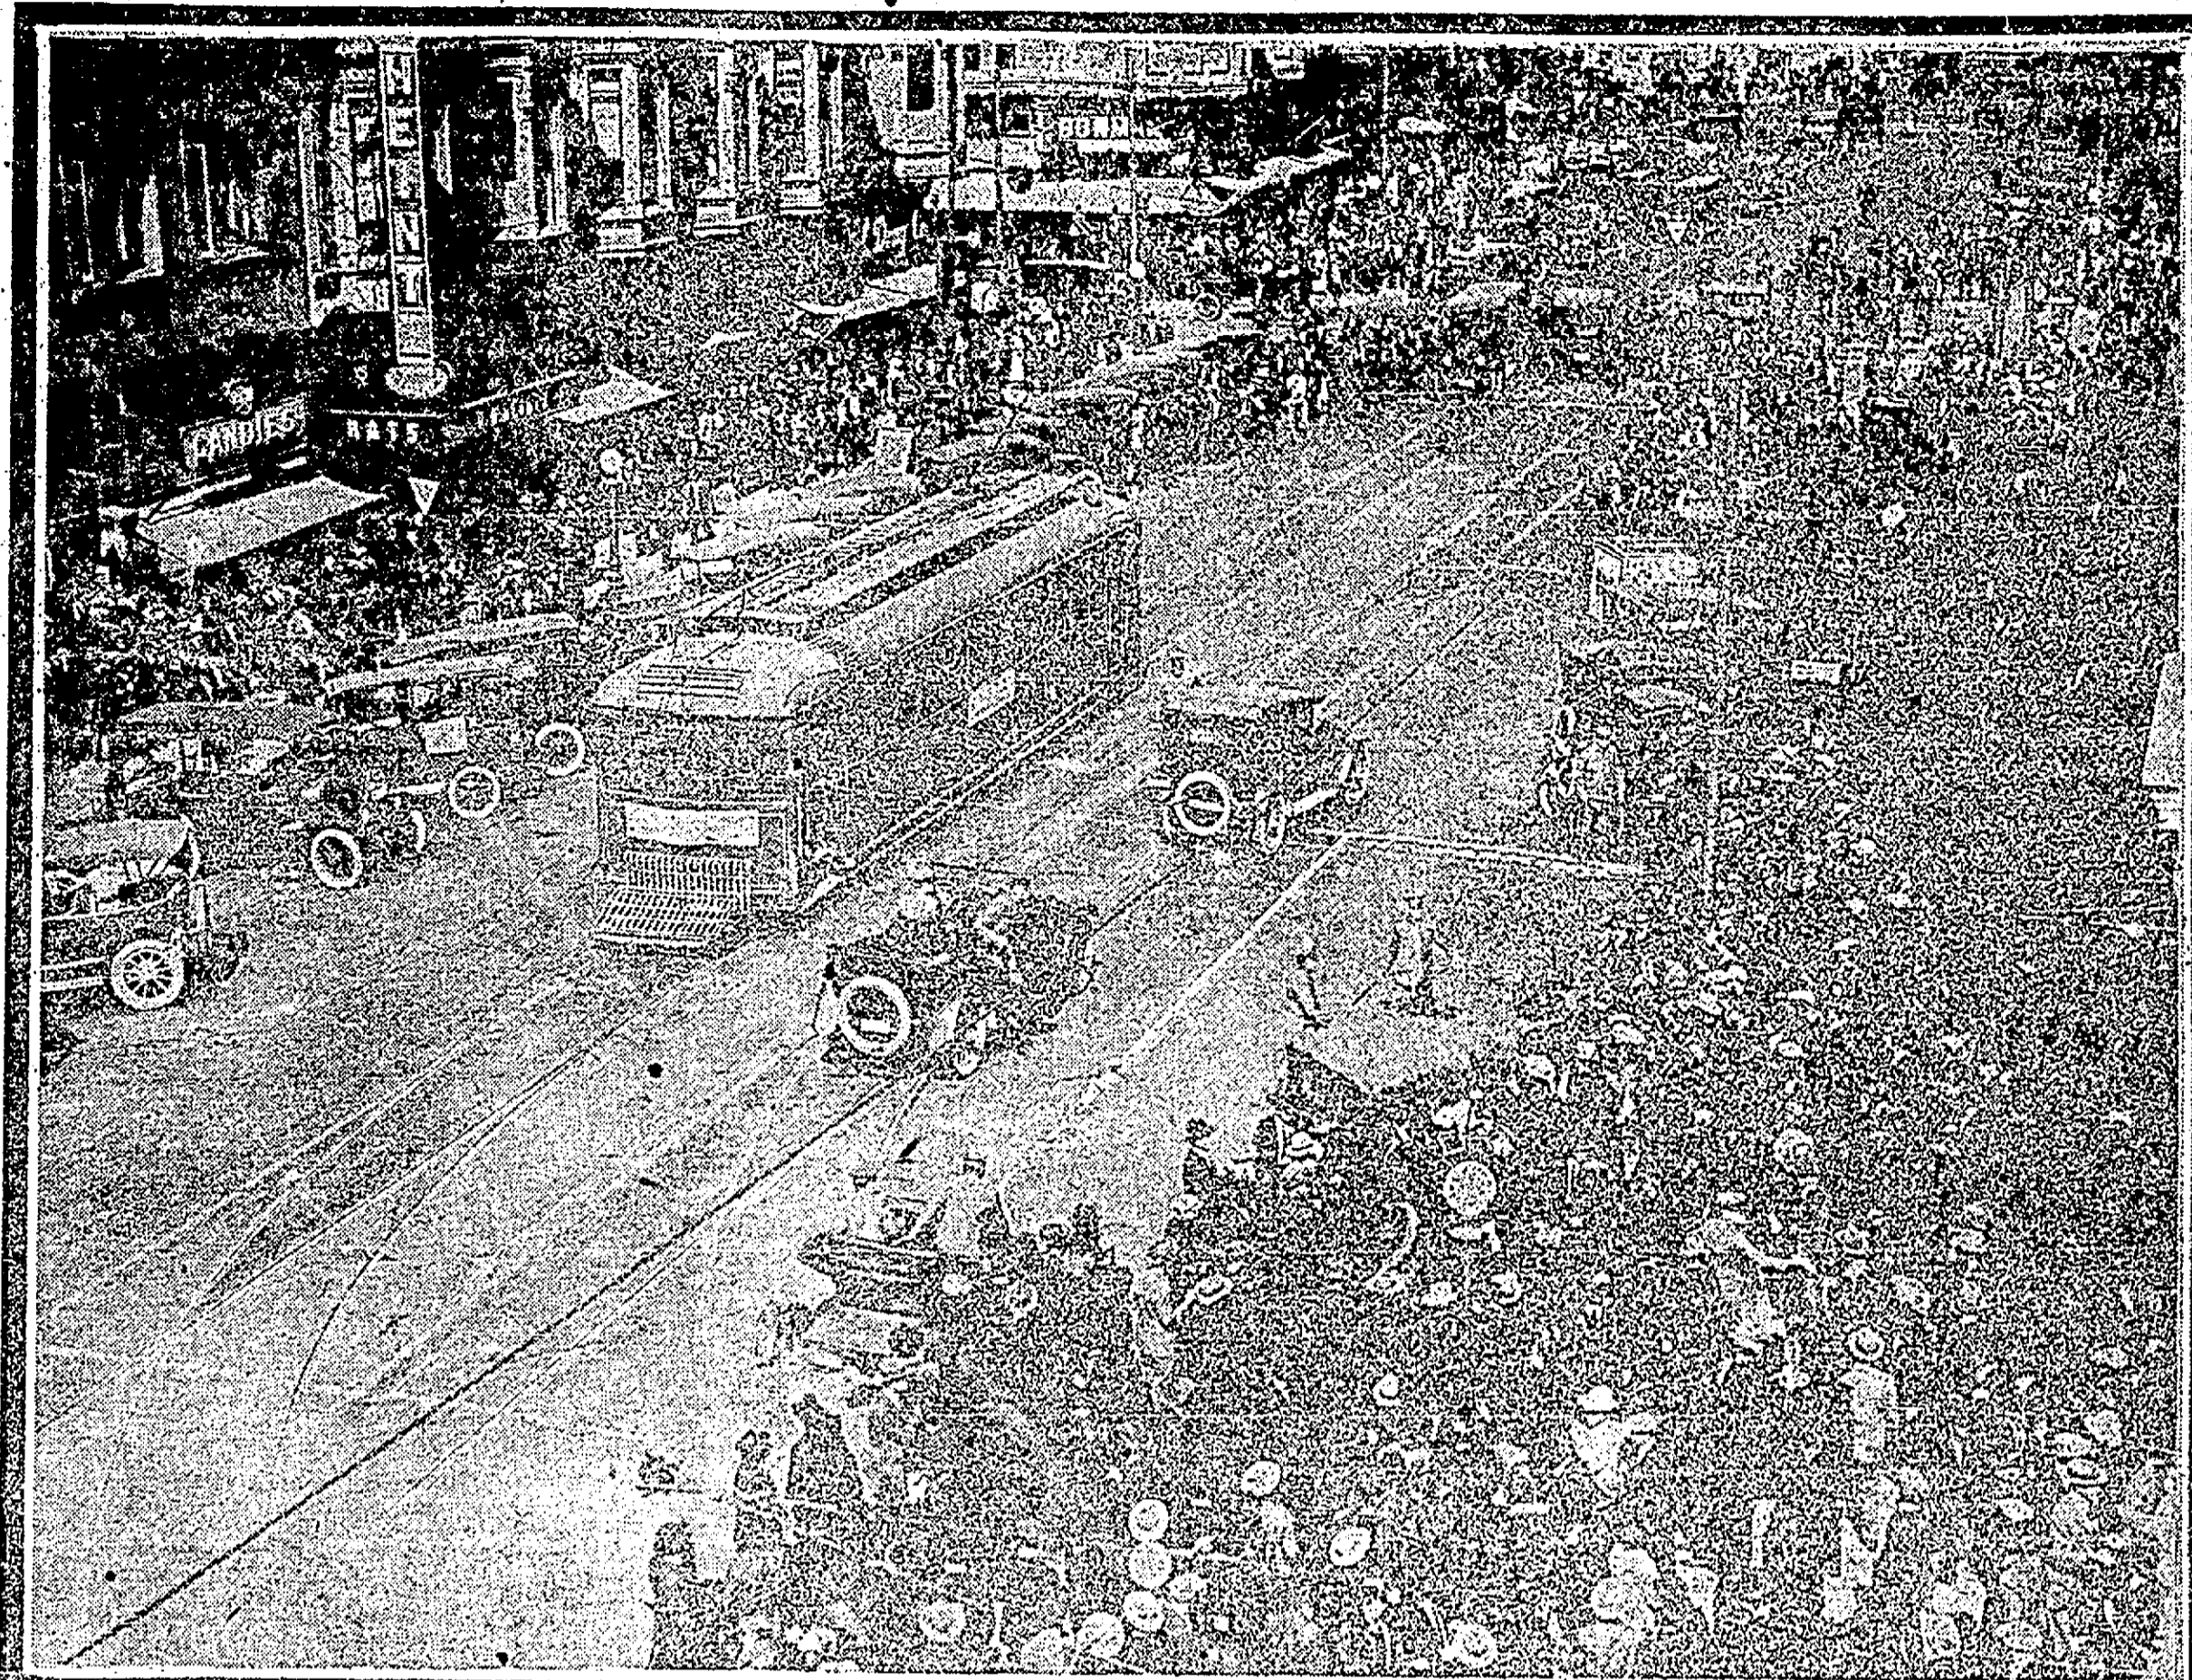

## Grape-Nuts

is ideal for the cereal part of any meal.

Greatly relished by children - and good for them.

"There's a Reason"

Two scenes of the rioting incidental to the car strike on Broadway between Twelfth and Thirteenth streets yesterday. The police who attempted to keep the mob, out of which a volley of rocks was hurled upon the cars, back from the street, rode up and down before the crowd in autos, but were out of these half the time forcing the masses of people back upon the sidewalk. The upper photograph, taken by a TRIBUNE staff photographer, shows one of the cars as it paused momentarily before taking the switch into Twelfth street. Here practically every pane of glass in it was smashed.

## LABOR VOTES WEEKLY FUND FOR CARMEN

With unlimited powers, given them last night by the Central Labor Council, a committee of nine union men today have begun work on the local strike situation. Sixty-five unions, associated in this county's labor movement, and representing 60,000 workers, have placed in the hands of the leaders all powers to do anything that may solve the local industrial situation and protect the interests of union labor locally.

Concurrent with the appointment of the committee, a weekly fund of \$40,000 was voted by the council at last night's meeting for the benefit of the striking carmen. This fund will result from assessments laid down every week on every union man and woman associated with the Central Labor Council.

The committee will begin active work on the strike. This was the announcement this morning of Secretary William A. Spooner, who made the following statement:

"This committee has been employed by union labor of Alameda county to protect it in this crisis. Our powers are unlimited and we have been given sanction to handle any situation—any emergency and any action that may arise."

The committee appointed to act by the council includes the following: E. S. Hurley, D. Hopkins, L. F. Laytham, G. V. Manning, J. Whitsett, C. D. Warner, E. Carter, C. Cooley and William A. Spooner.

Similar committees from the Building Trades Council and the Metal Trades Council have been appointed or will be appointed by tonight. The three bodies will meet tomorrow morning, according to present plans.

The Metal Trades Council last night appointed the following men to act as its committee: P. Kennedy, R. Hendley, M. Skirkey, George Smith, William Grutsch, J. H. Powers, J. Morrenthal, Tony Quintana and J. Hersch.

All union officials reiterate statements, urging a non-violence attitude by the public. All leaders condemn bloodshed and the use of armed guards on the cars. Meetings are being held by many unions at the Labor Temple, Eleventh and Washington streets.

Following a meeting last night at civic auditorium, attended by almost every man in the carmen's union, an announcement was made today by President Lee F. Laytham that the organization which he represents is determined to meet every emergency in the present situation and, if need be, "fight to a finish."

Laytham said that the men at the meeting denounced violence in the strike and were determined to "stand pat" until they were assured of justice. Plans were made for strike benefits. While the carmen were meeting the Central Labor Council decided to give \$40,000 weekly to the carmen during the present emergency.

That the eight-hour day must be conceded before arbitration is possible formed Laytham's closing statement.

## 18th Street Line Service Increased

Because of conditions resulting from the strike of the employees of the San Francisco-Oakland Terminal Railway, the Railroad Commission today authorized the Southern Pacific Railroad to add sufficient cars to its Eighteenth street line to enable the company to give adequate service. The order was issued by the commission following the receipt from the railroad company of an application for authority to operate as many more than two cars per train as will be necessary to handle the traffic. The order will remain in effect until changed by the commission.

## Desertion, Cruelty Charged in Suits

William M. Whitley today sued Rosa Lee Whitley for divorce, alleging desertion, and May H. Laughlin charges extreme cruelty in her suit for divorce from Pon R. Laughlin.

## ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment.

Take course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combats with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable. —Advertisement.

## Test Oil Drilling In Tulare Region

PORTERVILLE, Oct. 7.—Mate-

rials are being assembled near Jaminio station, on the Southern Pacific south of here, near the Kern county line, for test oil wells, which

will be drilled several miles further north than any previous exploration work. At the same time agents of various oil companies are seeking leases in some instances to the edge

of the Richgrove orange district. Oil men who are behind the extension declare their confidence that the district is underlain with oil, basing their prediction on success with a

well drilled just before the war near the Richgrove citrus district, in which oil sand was encountered, but in which the drillers were unable to shut off the water pressure.

## Uncle Sam Is Teaching His Daughters Thrift

By EDNA H. KINARD

Uncle Sam has been teaching his daughters the way to thrift. He has sent his messengers to tell her not to waste either time, material or money. He has demonstrated to her many strange devices for conservation of little things and written eloquent pamphlets describing the simple path she should tread. But how the daughter is teaching Uncle Sam something. Also, the lesson has its inception in conservation and thrift. Fruitvale Woman's Club is giving its representatives in Congress calling attention to the fact that a certain large amount of money is being wasted annually in "addition" resolutions which are not being used which should be used.

Special Booklet on Motherhood and Baby free.

Redfield Recolton Co. Des. 72, Adams St.

Plantings fall to materialize, the clubwomen declare. Of those who could use the seeds do not receive them, they complain. The Fruitvale women have ascertained that this free distribution of flower and vegetable seeds costs the government in the neighborhood of \$300,000 annually. Every penny saved helps, they have been taught. Therefore, they are calling their representatives attention to the bad practice of giving away seeds. They are searching other avenues where revenue can easily be saved without any embarrassment to livelihoods or efficiency.

Fruitvale Woman's Club has changed its day of meeting to the first Friday of each month. The University Mothers' Club is quite frank in its ambition for a full treasury and makes no excuses for the benefit card party which has been planned for the first Friday of October 18. I. O. O. F. hall will be a festive spot when the members of this unique organization will make merry. Their joyousness will witness a coffee which can carry out a part of the year's program of work. Mrs. Carrie Hoyt is president of this unique organization which has no counterpart in the United States, succeeding Mrs. Kimball Easton.

Whether the California Writers' Club will consider "The Literary Nut Grove" and "Fiction and Hard Sauce" tonight depends entirely upon the service. In event that the strike is still in operation when appetites clamor that it is time to dine, the function will be automatically postponed. Otherwise, the Armenian Tea Garden, at the southwest corner of Alston way and Atherton street, in Berkeley, will become the setting for the literary feast. This is the first program which the California Writers' Club has announced since the vacation days. Professor E. O. James of the English Department of Mills College, has undertaken to lead the members through the "Literary Nut Grove" while Miss Florence Livingston will serve up "Fiction with Hard Sauce." Miss Livingston, who is a clever Oakland woman, has returned from Columbia University where she spent a year giving particular attention to the development of her literary ability.

Recognition that the daily newspaper plays a large part in the prosperity and life of any organization, Oakland Center, California Civic League, is thinking it well worth while to consider a bit the personal side of the powerful institution upon which it can so frequently be relied. That an understanding of some of the general principles of the news-

paper world and some of the difficulties which it has to go against, such as human nature, inaccuracy, etc., will create a happier relationship, the executive board has invited G. G. Weigle, veteran newspaper man, to review for the Friday afternoon meeting in Hotel Oakland the "Process of News Gathering for a Daily Paper."

Mrs. Frank G. Law has devoted herself and sent out a public call for a speaker to whom may be presented an invitation to address the center on the negative side of the school bond issue which the citizens vote upon October 21, but without success. It is the policy of the organization to hear both sides of every question, except in those instances where only one side appears. This is apparently so in the school bond issue. Fred Hunter, superintendent of Oakland Schools, will offer to the members of the center the reasons why they should ever themselves to go to the polls and cast a favorable ballot.

Mrs. Fred Hall will be chairman of the Friday program. Community singing will be led by Miss Alice Wood. Perhaps the subject of the second program for October is not cheerful but it is important. "Willis" will be discussed by Judge P. F. Gosbey, of San Jose, on Friday, October 21, at 2:30 p. m. in Hotel Oakland.

Adult Probation Work will be considered at the conference of the Big Sisters of Alameda County in the Y. W. C. A. auditorium tomorrow afternoon. The speakers will be Leonard B. Compton, chief adult probation officer and Miss Ella Flynn, deputy adult probation officer in charge of the women offenders. A third speaker will present the school bond issue.

Measles and ear strike has completely obliterated the program which the Oakland Club had arranged for tomorrow afternoon. Fate was too much against them, so the board of directors have announced that the club will take a vacation on that date. Mrs. Everett J. Brown, who was to have given an hour of poetry, is nursing three small youngsters who have contracted the childhood disease. Miss Kussan, in looking over the club directory, decided her members live in parts too remote to depend on uncertain transportation.

Garfield Parent Teacher Association will tell East Oakland what that section will gain by voting for school bonds at a Rally program which is arranged for the evening of October 17 in the assembly hall.

MRS. FRANK MOLLER, one of the attractive younger matrons, who gave one of the large teas of the past week, an affair which assembled many of the winter's brides-elect.—Webster photo—Keystone Pictorial Service.

## Polo Attracts Society at Del Monte

The late summer days at Del Monte have drawn polo enthusiasts to that resort, now one of the coast's polo centers. Though many of the poloists have turned out their steeds, enough ponies are kept in training to provide dashes and knockabout tiffs on the field. Next Sunday the crack Del Monte four are to go to San Mateo for a match. The players are to be Hugh Drury, Colonel Blythe Nutting, famous British player, and Eric Pedley against a strong four at San Mateo.

Miss Helen Garrett, Miss Natalie Campbell and Mrs. Sydney Cloman made up an interesting trip, enjoying the outdoor life there. Mrs. C. F. Dillman of Sacramento and family, Miss Corinne Dillman and Dean Dillman, are enjoying a fortnight at Del Monte following the marriage of Miss Pauline Dillman and Dudley Heron over the bay.

The California juvenile golf championship is to take place November 27, 28 and 29.

Miss Josephine Miller will entertain the last of the week with a dancing party at her home in the college city, the guest list to include a number of the university set.

Miss Muriel Zahn will be hostess at tea tomorrow afternoon, entertaining informally for a group of Eastbay friends at bridge at her apartments in the Peralta.

EN ROUTE TO OHIO. Mrs. Howard H. Russell, who has been the guest of her daughter, Mrs. Ger on a train of which he was a Thomas Reed, for the past month, is

on route to her home in Ohio. Mrs. Russell was accompanied east by young Russell Reed, son of Professor and Mrs. Reed. He will enter an exclusive military school in Indiana, to study for the coming year.

The marriage of Miss Pills Jones and Lionel Browning will take place Wednesday, October 23, at the home of the former's parents, Mr. and Mrs. Herbert Jones, in Berkeley. Only relatives and a few intimate friends are to be guests, the ceremony to be performed by Rev. Herbert Powell. Miss Edith Browning will be maid of honor at the wedding and Miss Helen Newlin, Miss Janet MacKay and Miss Lena Moon bridesmaids. The couple will occupy a new home in Northbrae on their return from their wedding trip.

INVITATIONS ARE OUT FOR BRIDGE. Mrs. Burr Eastwood has sent out cards for a bridge afternoon, October 17, when she will entertain in compliment to Miss Marguerite East of San Francisco, fiancée of Edna Waldorf. A group of Piedmont friends have been invited to meet the bride-elect.

Mrs. Frederick Bradshaw entertained this afternoon at bridge for a coterie of Eastbay friends gathered together to bid farewell to Mrs. Kendall Morgan, who is to make New York her residence in the future. Thursday Mrs. Paul Dinsmore will be hostess at her Crocker Highlands home for Mrs. Morgan.

Mr. and Mrs. Elton Warner are in the east visiting Mrs. Warner's sister, Mrs. Georgia Hunt Pearson, recently home from France.

THIRTY YEARS FOR PORTER. CARROLLTON, Mo., Oct. 7.—William Wardlow, a negro, was sentenced to thirty years in the state penitentiary, following an alleged attack he is said to have made last night upon a white woman passenger on a train of which he was a porter.

## Blue Fox Pelts Bring Fancy Prices

NEW YORK, Oct. 7.—Blue fox pelts brought \$350 each at the opening season of the annual fur auction here. It is estimated that \$7,000,000 worth of furs from all parts of the world will have been knocked down by the auctioneer by the end of the week.

# Too Ill to Work

## Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism? Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial." —Mrs. TIMOTHY GRANEY, 426 Connor Ave., Joplin, Mo.

And Another Chicago, Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any work at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me very much so that now I can do everything in the house. I have told my friends about Vegetable Compound and you have my permission to use this letter." —Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.

Thousands of such Letters Prove the Curative Value of

# Lydia E. Pinkham's Vegetable Compound

section by the announcement of the reception which the teachers of the Frick School have planned for Monday evening in the school auditorium. Professor L. O. James of Mills College, Mrs. Georgia Speiker, representing neighboring schools; Mrs. Frank G. Law, representing civic interests; Rev. James B. Orr, representing the churches; Mrs. J. Evans, representing the clubs; Mrs. J. George Short, representing the Board of Education, will be the honored guests. A musical program will be offered by Miss MacNitt and F. J. Rau.

Frick P. T. A. will receive at a card party at the residence of Mrs. Daniel Holmes, 2541 Sixty-sixth avenue, on Friday.

Philanthropy will be boosted at the matinee benefit which the Mazara P. T. A. is planning for October 25, a special program being offered with moving pictures in the Glen Theater.

## BOY SLAYER IS SENTENCED TO DIE

BAKERSFIELD, Oct. 7.—Roy Wolff, aged 17, who was convicted of the murder of Elmer E. Greer, Taft rent car driver, who was killed with a hammer, was yesterday sentenced by Judge Howard A. Pearis to be hanged at San Quentin. Attorneys, Jackson H. Mahon and W. E. Laidley, for the defendant, gave notice of appeal from Judge Pearis' motion denying Wolff a new trial. Wolff, whose home is in Yakima, Wash., went through the ordeal without flinching. He was apparently the coolest one in the courtroom.

## Underground Water Rights Are Granted

WASHINGTON, Oct. 7.—To encourage reclamation of Nevada's desert lands, the house has passed a bill authorizing exploration in that state for underground waters to be used for irrigation purposes. The measure, having passed the senate, now goes to the president.

Under its terms, the secretary of the interior is authorized to give a homesteader the exclusive right for two years to develop underground waters, and if in that time he demonstrates the successful irrigation of twenty acres, he is given 640 acres for his land.

## ONE HAZER IS SENTENCED TO PENITENTIARY

CHRISTIANSBURG, Va., Oct. 7.—Four students at Virginia Polytechnic Institute were found guilty of assault by a Montgomery county jury last night because of participation in a hazing episode at the school last spring, and Bernard Siegel of Newport News, one of the number, was sentenced to a year in the penitentiary. John Fox, a freshman at the institute at the time, testified during the trial that injuries he sustained at the hands of the four, who were sophomores, resulted in paralysis of the spine.

The three other students received respectively sentences of six months in jail, thirty days in jail and \$50 fine.

Fox said that Siegel had pounded him in the small of the back with a bed plate and that the other three did the same.

## METAL TRADES FACTIONS PLAN TO STAND FIRM

Shipyard workers and men employed in outside metal trades shops, now on strike, are preparing for a protracted strike, it became known today when the announcement was made by Secretary John Morganthaler of the Alameda and Contra Costa Counties Metal Trade Council that the policy committee of the Pacific Coast District Metal Trades Council would meet here Thursday and formulate plans for concerted action by union employees.

The committee is composed of the men who negotiated the recent agreement which was cancelled by the United States Shipping Board. This agreement, which was to have taken the place of the Macy award, had been signed by union conferees, all but three shipyard representatives. Canceled by the shipping board, 50,000 metal trades workers of the bay district struck, and the agreement was made official once more by Washington government leaders, but too late to recall strike action.

**MEET TO MEET THURSDAY.**  
The men who will meet here Thursday and decide upon a definite policy in conducting the strike are J. W. Taylor, Seattle; Tom Russell, Tacoma; C. Corneroff, Portland; Curley Grow, Los Angeles; and H. L. Sweeney, Oakland. These members are fully acquainted with the ship phase of the agreement—the cancellation and the resultant strike.

It was indicated today by Morganthaler that the conference Thursday would be one of consolidation of individual union efforts in conducting the strike.

**EMPLOYERS' STATEMENT.**  
The employers' stand may be summed up in the following portion of the announcement:  
Our stand at this time is as much in the interest of the men as the management. One cannot work without the other, but the plan under which they work together must be one that will recognize.

First—That unless we get business there can be no jobs at any pay at all.  
Second—That we cannot get business unless we meet the price of our competitors.  
Third—That we cannot meet competition unless we are assured of economical production, or, in other words, that eight hours' honest work will be given for eight hours' pay.

**MEMBERS ARE A UNIT.**  
There is a complete climax of the announcement. The preceding portions follow:  
The members of this association who represent all the shipyard and most of the outside shops, are as a unit in their determination to stand by the government in its effort to restore normal conditions.

Now, while this because it is our duty as loyal citizens and because, as manufacturers, we know that the manufacturing industry of this community depends for its existence on a steady return to normal conditions.

During the war the rules of economical production were thrown to the winds. Conditions, created in the emergency and have persisted since, which prevent our competing for business in the world market or against other communities.

Just as the whole world must be considered on a normal basis so must the metal industry here be established so that it will offer a fair return to the employee and steady, well-paid work to the employee.

**Janitor on Key Route Pier Has Disappeared**  
Joseph Pineda, 60, janitor on the Key Route pier, has mysteriously disappeared from his post of duty. This report was made today to the Oakland police by O. R. Seeborg, 82 Rose avenue. Pineda was on the pier, where some fifty strikebreakers of the Oakland Traction company were living.

Police inspectors may investigate his disappearance.  
Pineda lived alone on Forty-fifth street.

## Relief From Sugar Famine in Sight 40,000 Sacks to Arrive Next Week

Relief from the present sugar famine is believed to be near, according to Ralph P. Merritt, western representative of the federal sugar equalization board, who said today that he had made arrangements to borrow, on behalf of the board, 12,000 tons of beet sugar now in process of manufacture by local refiners. This sugar represents stocks of sugar that have not as yet been contracted by the refiners and will be ready for delivery some time next week.

Merritt says that much of the sugar now in the hands of refiners has been bought up by dealers and that the amount not yet contracted for is comparatively small.

The first consignment of the sugar borrowed by Merritt, 40,000 sacks, will be ready to redeliver some time this week, it is announced. Successive consignments will be placed on the market as rapidly as the beet sugar plants can produce it.

**REFINERY TO OPEN.**  
Coinciding with this announcement comes word that the Western Sugar Refinery, which has been closed down for a week, has adjusted its differences with its employees and resumed operation yesterday. It is announced that the plant will now be operating at capacity in an effort to relieve the sugar situation.

Merritt says that while there will not be an abundance of sugar, there will be plenty for normal consumption on the part of speculators or extravagance on the part of the public. This will depend, according to Merritt, largely on the ability of refineries to continue operation without strike interference.

**MERRITT GETS OUTPUT.**  
At a conference yesterday in San Francisco between local sugar refinery representatives, Merritt was given complete supervision of their output and was promised their fullest co-operation in meeting the existing emergency.

Merritt opened offices today in room 616, Oceanic building, where the machinery will be placed in operation for the equitable distribution of sugar produced here throughout the west. The sugar will be allocated as in war times on a population basis.

The threatened shortage of sugar which has been facing the country since the war began, is being met by the government's action in placing 40,000 sacks of sugar on deposit in the savings bank.

**SUGAR PLACED ON DEPOSIT IN SAVINGS BANK**  
SAN BERNARDINO, Cal., Oct. 7.—Two tons of sugar are "on deposit" at the Savings Bank of San Bernardino.

The sugar is the property of a merchant who found his storage space limited, so he arranged to have it stored in a rear room of the bank.

President Levering of the bank said the institution would care for it as for other valuables entrusted to it.

**Janitor on Key Route Pier Has Disappeared**  
Joseph Pineda, 60, janitor on the Key Route pier, has mysteriously disappeared from his post of duty. This report was made today to the Oakland police by O. R. Seeborg, 82 Rose avenue. Pineda was on the pier, where some fifty strikebreakers of the Oakland Traction company were living.

Police inspectors may investigate his disappearance.  
Pineda lived alone on Forty-fifth street.

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.

## POLICE PROBING MURDER, SUICIDE

SACRAMENTO, Oct. 7.—Investigations by the police today had not disclosed the motive for the shooting last night of George T. Ryan, a grocer, by Irving Carroll, said to have been a veteran of the world war. After shooting Ryan, Carroll turned the revolver on himself and died almost instantly. Ryan died on the way to the hospital.

SAN JOSE, Oct. 7.—Mrs. G. Mancous was granted an interlocutory decree yesterday on testimony substantiating her charge of mental cruelty. Her husband was Gabriel Mancous.

### Men's Silk Sox 69c

—Manufacturer's "seconds" from a well-known line. All shades and sizes in the assortment. Nearly six hundred pairs priced for rapid disposal at 69c pair.

### Munsingwear Union Suits \$1.69

—These too, are "seconds" and likewise unusual values for that reason. Made of fine quality cream cotton in all sizes and styles, for men.

### Heavy Union Suits \$1.95

—These are made with long sleeves and ankle length. Good weight, serviceable quality that will give unusual satisfaction. Fleece back suits in sizes 36 to 46.

### Boys' Sweaters \$2.85

—Boys' school sweaters with military collar. Good, serviceable quality in the popular khaki shade. Sizes 30, 32 and 34.

### Youths' Union Suits \$1.39

—Munsingwear union suits in white or cream; three styles—long and short sleeves in knee and ankle lengths.

## Smart Coats for Autumn

# \$25.00, \$29.50, \$35.00 to \$49.50

—All of the newer shades for Autumn and Winter are presented in a large assortment of pleasing styles. Materials of wool velour, broadcloth, silvertone, cheviot and mixtures.

### New Suits for Autumn

# \$35.00, \$55.00 to \$75.00

—Low prices at the beginning of the season, an economy every woman will appreciate. The fabrics are wool velour, serge, broadcloth, gabardine and silvertone in a wide array of modish styles.

### Women's Cotton Union Suits 98c

—Made in the low neck, sleeveless style, tight knee length. Sizes 36 to 44. Very special value at 98c suit.

### Sleeveless Vests 19c

—Women's sleeveless vests in plain or fancy yoke models. Made of soft finished, bleached cotton in sizes 36 to 38.

### Silk Top Union Suits \$1.79

—Women's pink or white union suits with reinforced silk top in sizes 36 to 44.

### Misses' Munsing Union Suits 69c

—Medium-weight bleached cotton union suits in the high neck style with long sleeves and ankle length or in the low neck style without sleeves and loose knee length. Sizes 1 to 4 only at 69c suit.

### Children's Fancy Half-Hose 33 1-3c Pair

—These are in light and dark grounds with colored striped fancy cuff tops. Sizes 5 to 9.

### Women's Silk-Fibre Stockings 95c Pair

—Good quality, attractive silk-fibre hose in black, white and all of the most preferred shades. Sizes 8 to 10. "Second."

### Silk Boot Stockings 69c Pair

—Women's silk boot stockings with reinforced heels and toes and deep elastic garter top. Sizes 8½ to 10.

### Frocks for Evening Wear

# \$14.95, \$25.00 to \$45.00

—Frocks for youthful evenings of entertainment—for every occasion where lovely party dresses are appropriate. In all wanted shades and trimming effects.

### Corduroy Lounging Robes \$7.95

## ---a special assortment

—Due to an extraordinary large purchase we were able to secure these attractive robes at a decidedly low price by which our patrons benefit. These in this lot are especially good value. Others are priced upward as high as \$19.50.

### Women's and Misses' Tuxedo Coat Sweaters \$8.95

—Attractive new sweaters in the popular Tuxedo style. Autumn's newest shades including American Beauty, turquoise, coral, buff, Copenhagen, navy and also white. Very good value at \$8.95.

### Extra Sizes---We Specialize in Them

—Mercerized hemmed napkins ready for immediate use. Six for \$1.10.

### Damaged Blankets, \$4.95 Pair

—Just 60 pairs of damaged blankets of wool and cotton mixed quality in white or gray. Some have misbuttoned borders, some are slightly soiled and others have small patches. Grouped for a quick clearance at \$4.95 pair.

### Wool Finish Suitings, 20c Yd.

—The popular cotton suitings with a smooth wool finish. Medium grounds with neat small stripe effects.

### Dress Gingham 22c Yd.

—Attractive American dress gingham in a neat assortment of fancy plaid designs for women's and children's wearables.

## The Oakland Bank of Savings and Oakland Industries

For over half a century this bank has had the best interests of Oakland in view and by a progressive yet conservative policy has aided materially in its industrial growth.

Oakland is celebrated for Gas Engines. Their excellence has created a market around the world. They are in use by practically all departments of the U. S. Government and by the governments of Peru, Japan, Fiji, England, Samoa, New Zealand, British Columbia and Australia.

In gaining this pre-eminence the Atlas Imperial Gas Engine Co. has played an important part. Established in 1906, it occupies 20,000 square feet of floor space, employs 150 men and circulates approximately a third of a million dollars annually through its pay roll.

# 13 INJURED IN CAR RIOTS IN ONE DAY

None of the wounds sustained by the men shot in yesterday afternoon's rioting nor of the injuries of a number of others who were variously hurt is expected to prove fatal. All of the wounded men, including Captain William F. Woods, of the northern station, were shot in the legs and feet. The only bullet that was fired high from the strike-breaking crowd was a shot from a private residence across Harrison street from the Hotel Oakland.

THIRTEEN NAMES ON LIST OF INJURED IN YESTERDAY AFTERNOON'S RIOTING INCLUDES THE FOLLOWING:

Charles Woods, shot in right leg. Harry Stutten, 514 Seventeenth street; shot in leg.  
Charles Lucas, 28, 1820 Tenth street, Berkeley; shot in right heel.  
John L. Williams, 2248 Eighth street; shot in right foot.  
Clarence Lippard, teamster, 609 Alameda street; shot in leg.  
Sidney Rands, 241 Thirteenth street; head injured.  
John J. Kelly, 2051 Twentieth street; trampled by crowd.  
Elias Kennedy, 2110 B street; cuts on head; concussion.  
Policeman George Underwood; head injured.  
J. E. O'Denning, car company inspector; wrist fractured on injury to side.  
Louis Horst, guard on car; abrasions of head from flying stones.  
John C. Kelly, guard on car; injuries to head from flying stones.  
Mrs. K. K. Williams, 1304 Alameda street; cut by flying glass.

SOME TWENTY SHOTS FIRED FROM CARS

It is believed that Captain Woods was struck by a bullet fired from the mob while he was pursuing a man who had been running. The man who was shot in the leg was shot by guards on the fourth and fifth cars that turned in along Thirteenth street. Some twenty or more shots were fired from the cars between Franklin and Alameda streets. Several who claim to have been innocent bystanders are among those injured. Twenty persons were placed under arrest. Chief J. E. Lynch also arrested eight men who were on the cars from which the shots were fired. The strikebreakers held by the police are, with one exception, from Los Angeles. They are: George Steele, printer; James Marshall, shipfitter; James Goodwin, conductor; John Fernandez, laborer; Carl Elman, special officer; Thomas Coffey, teamster; George Dumas, shipfitter; and Harry Henley of Arkansas, machinist.

THE CARS HAD MADE TRIPS TO BERKELEY, TO THE MOORE SHIPYARDS AND ON BROADWAY AND TWENTY BEFORE THE RIOTING OCCURRED. IT WAS WHEN THE CARS, RIGHT OF WHICH HAD BEEN SENT OUT BY THE COMPANY BEFORE NOON FROM THE CENTRAL BARN, WERE RETURNING TO THE BARN AT 1:30 O'CLOCK THAT THAT TROUBLE COMMENCED.

CARS BATTERED BY SHOWERS OF STONES.

The first car, stoned from Broadway and Twelfth streets, between Twelfth and Thirteenth streets, but it had not yet half block when it was badly battered with stones, practically every window on one side had most of the stones being smashed. The men on the car turned into Twelfth street where the mobman, the guards, dummy passengers and conductor were flat on the floor to escape the missiles.

Thinking to circumvent the crowds that were thickest at Twelfth and Broadway, the third car was turned into Thirteenth street instead, but it had not yet half block when it was stoned by a machine. The mob at Twelfth and Broadway doubled back along Twelfth and Franklin to Thirteenth and Franklin, where a crowd of men, some size attacked the car from the Broadway side. A heavy stone struck the mobman and dropped the car tracks. Another man, substituting for the mobman, at a moment later but kept in his post.

MOB BEATIN' BACK BY POLICEMEN'S CLUBS.

The police beat upon the mob at this point with drawn clubs and gradually beat them back along Franklin and Thirteenth streets. The car finally got under way and proceeded along Thirteenth street, stoned from the sidewalks as far as Webster.

The firing occurred when the fourth and fifth cars ran along Twelfth and Broadway. The platform of the fourth car opening fire with a rifle as stones began to smash the car's windows before Webster street was reached. The firing continued to Broadway, and two men on the sidewalk were dropped with bullets in feet or legs. Guards on the front and rear sides of the fifth car which immediately followed the fourth, were in the interim between the two cars Captain Woods was shot, supposedly by somebody in the crowd, when he was pursuing a stone thrower.

There was a succeeding lull of a few moments, after which the sixth, seventh and eighth cars made their way down Thirteenth street under a hail of stones and bricks which smashed several windows in each car. There was no firing off these cars. A stone was hurled from the Del Monte cafe when the third car halted in front of it on Thirteenth street and the place was closed after a search by the police.

1468 VESSELS BUILT BY U. S. DURING BIG WAR

BY ASSOCIATED PRESS

WASHINGTON, Oct. 7.

A new building, the first commenced with the war have resulted to date in the construction of 1468 vessels of a total deadweight tonnage of 8,190,565, announced today.

## STRAW VOTE TO BE TAKEN ON LEAGUE

### Three S. F. Men Are Held as 'Vagrants'

ALAMEDA, Oct. 7.—The three San Franciscans arrested on vagrancy charges early yesterday morning, near the Webster street bridge, appeared in the Alameda police court this morning, but their cases went over till next Monday. Police L. R. Weinmann, desiring to secure further information, if possible, of the unusual trip of the trio to this side of the bay on the last Sunday night, and their subsequent appearance in Alameda. The police questioned the trio yesterday regarding the Dunning murder in San Francisco, but failed to connect the men with this crime. The three are middle-aged laborers from the North Beach section.

### Criminologist to Be Luncheon Orator

Harry H. Caldwell, criminologist and fingerprint expert, will be the principal speaker at the luncheon of Oakland Den, International Association of Lovers Clubs, in the Hotel Oakland, tomorrow. He will discuss various features of the work of criminologists in bringing criminals to justice.

## SYMPATHY FOR WILSON SHOWN BY BRITISHERS

LONDON, Oct. 7.—Concern over the illness of President Wilson is expressed by many London newspapers today. The Chronicle says: "No sick bed of our time, or perhaps any other time, has commanded such universal concern and sympathy. Not only America, but mankind, has a lot and part in the President's welfare." "Political and diplomatic circles are seriously preoccupied over the President's illness," says the Mail. "Really, no man in the world concerns the world more than Mr. Wilson. In Great Britain we await news from him not less anxiously than do the American people themselves."

**FACES THEFT CHARGE.**  
Taken in custody on a warrant issued by Judge Fitzpatrick of San Francisco, James Gordon, 44, a merchant in Oakland, is held in the city prison today on a charge of felony embezzlement.

## PLANS TO PAY HEROES HONOR ARE PROPOSED

ALAMEDA, Oct. 7.—The Alameda memorial committee, named by Mayor Frank Otis to investigate and take charge of the securing of a suitable municipal memorial to the memory of the Alameda men and women who died in war service, met last night. This is the second meeting held by the committee, but is really the first session of the committee as now constituted. Dr. George C. Thompson, principal of the Alameda high school, was elected chairman, and City Engineer C. E. Hickok, was named secretary. The other members of the committee are S. M. Hasset, Henry H. Meyers and Maurice W. Couchot.

The committee is ready to hear suggestions from citizens as to what form this memorial shall take. Monuments, bronze memorial tablets, memorial park or playgrounds, memorial trees, have all been mentioned. Sites suggested include the corner at Alameda and Central avenues the corner at Alameda and Sherman and Central, Washington and Lincoln parks, Jackson park, McKinley park and the city hall. One suggestion is for bronze tablets placed in Washington and McKinley parks, with perhaps a third bronze tablet in the city hall main corridor, and which would bear the names of those who paid the supreme sacrifice.

## BOY SCOUT DRIVE ON TOMORROW

Twelve teams of eighteen members each will meet at the offices of the Merchants' Exchange in the State Savings Bank building tomorrow morning at 9 o'clock for the purpose of starting the Rotary Club's drive for \$50,000 to aid Oakland-Piedmont Council, Boy Scouts of America. The business section of the city has been districted and each team will cover two blocks. It was announced at scout headquarters today that the drive will be pushed regardless of strike conditions. The Rotary says that by giving the boys of the community proper training they will grow up to have respect for law and constituted authority, and that if scout work is to be kept up citizens must furnish the necessary funds.

## KRULL GLADLY DROPS CASE OF DECORATED MAN

SAN FRANCISCO, Oct. 7.—When Frank J. Courtney, wearing the insignia of the First division, A. E. F., on his shoulder and a fourragere and a croix de guerre on his breast, walked into the office of Federal Court Commissioner Frank J. Krull yesterday to give himself up on charges preferred two years ago, Krull recognized it was time to dismiss the charges pending against the young soldier.

"America is the greatest country in the world," said Courtney. "I'm going to be proud to live in it. I have been in six major engagements and have had any use for Bolsheviks. The army has made me a good citizen. I'm ready to pay the penalty for my past wrong doings."

Krull shook hands with the young man whom General Foch had decorated for extraordinary valor. Courtney was held two years ago for violation of a federal statute. Krull released him on his own recognizance when he wanted to join the expeditionary forces. Yesterday's meeting was the sequel.

## YES, YOU COULD RIDE THIS HORSE UP GREASED POLE

BERKELEY, Oct. 7.—Is it possible for a horse to climb a greased pole? And if so, would it be worth \$500 to attempt to stay on his back during this remarkable performance?

These questions faced the students of the first year law course at the University of California, when a notice was posted asserting that Professor M. C. Lynch would pay \$500 to the student who would ride his horse "Prince" up the greased pole which the animal would climb at the law association banquet.

But the questions may never be answered, for although Professor Lynch has not withdrawn his offer, "Prince" will not appear at the banquet.

For "Prince" is the pet of the brain of Prof. Lynch, and he performs marvelous feats in the professor's imagination, and this latest of his tricks is offered by the instructor in order to test the knowledge of the students concerning contracts, for the notice contains the strange offer contains a statement robbing it of its interest, the students are concerned. The statement reads: "Could this offer be termed a contract?"

## RICHMOND-S. F. FERRY LICENSED

RICHMOND, Oct. 7.—A franchise was granted yesterday by the board of supervisors of Contra Costa county for a ferry between Richmond and San Francisco. M. Emanuel, president of the Ellis Landing and Dock company, secured the franchise. The dock will be improved at once and two steamers will be built, it is announced.

### Alameda Church Is Seeking a Pastor

ALAMEDA, Oct. 7.—The congregation of the First Congregational Church has not yet been able to secure a pastor to fill the vacancy caused by the resignation in September of the Rev. C. L. Mears, now in Minnesota. The Rev. Charles M. Forster is temporarily filling the pulpit. However, he is said to be not available as a permanent pastor. He recently returned from overseas war work.

## Santa Barbara Plans Fiesta for King Albert

SANTA BARBARA, Oct. 7.—Wild bear hunting on Santa Cruz island, seaplane flights, motor jaunts about the city, a banquet and other features are on the program to be featured in honor of the visit of King Elizabeth of Belgium and members of their suite upon their arrival in this city. Mayor H. T. Nielson received the first authentic information relative to King Albert's visit last night. He stated that committees will be named at once to formulate plans for the reception of the royal couple. It is believed here that King Albert's train will remain here probably twenty-four hours or longer.

### ALAMEDA OFFICIALS TO MEET

ALAMEDA, Oct. 7.—The city council and the board of education will meet tonight in regular session. Considerable business will be transacted by both council and board.

## PRISONER TRIES TO END HIS LIFE

After other prisoners had retired to their bunks late last night, Henry Williams, who is serving a term in the city prison on conviction of vagrancy charge, attempted to end his life by severing a wrist with a broken electric light bulb. A jail attendant heard the tinkling of an electric light bulb being smashed. He investigated and found Williams with a large gash inflicted in his wrist. The prisoner was treated at the emergency hospital. His injury was not serious. In the game of life many people think the other fellow has squared the umpire.

## OAKLAND DEMANDS SECOND WEEK OF 'THE MIRACLE MAN'

THOMAS MEIGHAN as the arch-crook and BETTY COMPTON as "Rose" in "The Miracle Man" at the Kinema today.

The development of character in the four principals of "The Miracle Man" at the Kinema becomes more remarkable as the picture advances. The case of Rose, played by Betty Compton, is especially interesting. Beautiful, clever, wicked, she is the member of a gang of crooks living in New York, Chinatown. When an unusually soft chance for a fat swindle took her out into the country—to the little village where "The Miracle Man" lived. The kindly country folk thought that she was good. A man, a good man, feared that he had cast a shadow upon her reputation. Then a downward turn of events and remorse swept over her—if she only had the right to fear. "The Miracle Man" showed her the light, helped her to find and understand the greatest thing life has to offer. A beautiful prologue introduces the picture and the News Weeklies complete the program. Ethel Clayton is appearing in her latest Paramount Aircraft release, "A Sporting Chance," at the Franklin today.—Advertisement.

# AMATO

The World's Greatest Baritone writes:

"The effect obtained on your remarkable Soloelle astounded me. Such perfect control of delicate tone-shading does not seem to belong to a player piano. One can play on it with the feeling and expression of the pianist; and it can also be used charmingly for accompanying."

*Reginald Abney*

The Soloelle is the only player piano in the world that will permit you to play as though you had all the knowledge—all the skill—all the technique of a trained pianist.

There are two reasons:

**FIRST**

The Soloelle is the only player piano that affords complete and unrestricted control of Melody and Accompaniment separately.

**SECOND**

The Soloelle is the only player piano that affords control of the tone-color—the kind, quality or character of tone as distinguished from quantity of tone (tone graduation).

The superiority of the Soloelle is acknowledged by all who hear it.

Knebe Soloelle, Kahler & Chase Soloelle, Gahler Soloelle, Scheninger Soloelle, Andrew Kohler Soloelle, Pease Soloelle, Fischer Soloelle, Hobart M. Cable Soloelle.

\$650 to \$1500.

Monthly terms to suit. Other instruments accepted as part payment.

26 O'Farrell St.,  
San Francisco.

# A man's life — among men!

REEL them off—"Rio", Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship!

Are the great world ports nothing to you but little red spots in your school geography, or are they real towns whose funny streets you've walked—whose strange sights you've seen—whose magnificence you've admired—towns in which you've greeted the world's sailor men from the Seven Seas?

Make each port you visit mean another big experience. Curious spots, beautiful spots, ugly spots, famous spots, and every one of them more interesting to see than anything you ever read about in all your life. Every ocean has a United States ship sailing for some port worth seeing.

Enlist for two years. Excellent opportunities for advancement. Four weeks holidays with pay each year. Shore leave to see inland sights at ports visited. Men always learning. Good food and first uniform outfit free. Pay begins the day you enlist. Get full information from your nearest recruiting station. If you do not know where the nearest recruiting station is, ask your postmaster. He knows.

# Shove off! - Join the U. S. Navy

If you've any call in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and afloat that will make you a welcome man in any company.

Compare such a personality with that of men who are content to just stick around all their days and see nothing. Boy!

Work?—sure, and a man's work it is, among men. Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away.

And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollycoddles.

# STATE LABOR CONVENTION HEARS REPORT

BAKERSFIELD, Cal., Oct. 7.—The twentieth annual convention of the California State Federation of Labor met today to business today with the report of the committee on credentials.

One session was held yesterday, the morning being given over to addresses of welcome by City Manager E. S. Benson for the city of Bakersfield; C. F. Johnson for the Kern County Board of Trade; L. C. Katz for the Bakersfield Chamber of Commerce; and L. L. Rinker, president of the Kern County Labor Council, who presided. President Daniel C. Murphy responded on behalf of the federation.

The regular state officials assumed the chair today, with Daniel C. Murphy of San Francisco presiding. Only one applicant has appeared for the 1920 convention, Mayor John Q. Brown of Sacramento sending an invitation to the convention.

The following committee chairmen were appointed yesterday: L. C. Katz, Los Angeles; reports of officers, Seth R. Brown, Los Angeles; rules, Robert L. Egan, San Francisco; legislation, Roy H. Baker, San Francisco; grievance, J. B. Dale, Vallejo; thanks, Ed Anderson, San Francisco; resolutions, W. J. Anderson, Bakersfield.

Several hundred delegates are in attendance from many parts of the state, but the attendance is not as large as had been expected.

A resolution calling for the federation's support of the government's 1919 third campaign was adopted by the resolutions committee by a representative of the Twelfth Federal Reserve district. A similar resolution was passed by the American Federation of Labor at its last convention in Atlantic City.

# Cruelty Charged in Siberia Camps Returned Men Accuse Officers

Some of the officers in charge of prison camps in Siberia were brutal, declare soldiers who returned home yesterday on the transport Thomas bringing many tales of discontent and stories of adventure with the American arms on the other side of the world.

Of 1800 Americans in one camp, 208 were in the guardhouse. It was said and the commanding officer announced that any offenders would be shot. Night sticks and fists then made patients out of any who violated camp rules, according to the soldiers.

Five hundred soldiers arrived on the Thomas for discharge. Most of them had seen two years' service in Siberia.

**MEN EAGER TO GET HOME.**

So eager were they to get home that when they neared the dock from the sanitary station over a foot of water before the boat touched the landing. Hundreds of relatives were on the dock and received the returning soldiers in their arms.

The men today were carried in an automobile parade up Market street to the civic center. A dance was given for them last evening at the Palace Hotel.

Two of the soldiers on the Thomas brought back Russian brides. These are the advance of a considerable contingent of beauties from the Land of the Bear whom American soldiers are to bring home.

Among the things complained of by the soldiers are the rations, the censorship and the treatment of prisoners.

**SAY FOOD IS NOT GOOD.**

The soldiers said the food in many instances was not "good" and that there was not enough of it. Some of them declared that Germans in Siberian prisons received more rations than the American fighters.

Although the war department announced some time ago that the Siberian censorship had been removed the soldiers deny this. Many of them smuggled in letters entrusted to them by their comrades who were not fortunate enough to be sent home.

They told a story of one officer high in command who was said to be a notorious drunkard, staggering through the camp after punishing others for similar misconduct. Some of the returning soldiers bear affidavits that are expected to make it hard for several of the officers.

Two of the soldiers are celebrities among their number. Lieutenant Emmett L. Harrigan of St. Paul is credited with punching the face of a titled Russian railroad superintendent. Sergeant Henry Rourke of San Francisco admits that he hit General Semenov, Cossack leader, in the jaw. Both men think they are rather fortunate to be alive today.

**CAUTIONED TO SAFETY.**

Lieutenant Harrigan was sentenced to be shot for his beligerency. The Russian he attacked had decided the Americans were traitors and urged the peasants to rise in revolt against them. Although there was a strike on the Russian railroad at that time the strikers ran a special train to carry Harrigan away in safety.

An attempt by Semenov to seize an American train caused Sergeant Rourke's attack, according to that worthy. Here's the way Rourke explains it:

"One Cossack became abusive and said uncomplimentary things about the Americans, including our party and our machine guns. I noticed that he wore a sword, but I didn't recognize him as the great Semenov, so when I ordered him off the car and he still refused I just whacked him on the head with the butt of my gun. He tumbled down the steps, but got up and tried to get on again. This time I kicked him in the stomach and he was knocked flat on his back. He crawled off the train and all the rest of them got off. They didn't dare fire on us because they knew they would have the whole American army down on their necks."

**SUPPLIES ARE STOLEN.**

"Nothing ever came out of the incident, because there had been too much robbery of Red Cross supplies in Siberia, and the Americans knew that all Semenov wanted was to take everything on the train and use it for his own purposes. If the American people knew how much of their Red Cross supplies intended for starving refugees in Siberia really went to the robbing lot of Semenov and other roving bands they would be as mad as the rest of us. Many a trainload leaves Vladivostok that reaches its destination with only half the original shipment left."

The story of the slaughter of seventy-two American soldiers far from their base while guarding an outfit of the way part of the Trans-Siberian railway at Romanofka is told by Private Stewart Reeves of Joplin, Mo., and Private Frank Schoonover of San Francisco, who were in the American party at the time of the attack.

**BOLSHIVIKI CRUEL UP.**

The slaughter resulted from the sentries leaving their posts a little early giving the Bolshheviks an opportunity to creep up to the camp, according to the soldiers. Many of the Americans were killed in their beds. The next night the Bolshheviks came again and the Americans were ready for them, getting ninety at the first volley and chasing the Russians thereafter for hours.

H. E. Sayers of Pasadena, senior secretary of the Russian railway corps, returned on the Thomas. He said the Japanese and Chinese have economic conquest of all the Pacific countries and are making particular efforts now in the former German Isles in the Pacific and also in Russia.

"The Japanese conquest of Siberia has already been assured," he said. "Thousands of the Mikado's subjects have been sent into the north along the Siberian railway from Vladivostok to Omsk. The Japanese have purchased some of the best lands and business properties and filled the country with cheaply manufactured goods brought in from duty under the guise of military necessity."

Harry Bullard, Oakland jeweler, plaintiff in a suit for divorce being heard by Judge George E. Crothers in San Francisco, claims that Mrs. Edna Grace Bullard, 240 Cabrillo street, defendant and cross-complainant, carried on flirtations with another man, causing him extreme mental anguish. He further alleges that she spread a report about two other women, Mrs. Boggs and Mrs. Rice, to the effect that they went to Byron Springs with two other men not their husbands, and that the women came to his house at midnight and staged an attack upon Mrs. Bullard that was a sensation, resulting in the police being called in and causing him great humiliation.

Mrs. Bullard likewise charged flirtation affairs against her husband, and claimed that when she flitted she did so in order to arouse her husband's waning interest in her. She said she was depressed upon the other women to carry the report of her conduct to her husband, with embellishments, and that they did so. She maintained that a man of her husband's caliber and character would not suffer mental anguish because his wife flitted, and her attorney sought to show that he had been previously married and divorced, and that he had had affairs with other women, so numerous as to make him blasé.

Judge Crothers commented upon a question as to whether Bullard is a church member. The court held the question to be irrelevant and remarked that if divorces were limited to members of the church and to people interested in community welfare there would be few divorces. The case is being continued.

# FLIRTED TO STIR HUSBAND'S LOVE

Harry Bullard, Oakland jeweler, plaintiff in a suit for divorce being heard by Judge George E. Crothers in San Francisco, claims that Mrs. Edna Grace Bullard, 240 Cabrillo street, defendant and cross-complainant, carried on flirtations with another man, causing him extreme mental anguish. He further alleges that she spread a report about two other women, Mrs. Boggs and Mrs. Rice, to the effect that they went to Byron Springs with two other men not their husbands, and that the women came to his house at midnight and staged an attack upon Mrs. Bullard that was a sensation, resulting in the police being called in and causing him great humiliation.

Mrs. Bullard likewise charged flirtation affairs against her husband, and claimed that when she flitted she did so in order to arouse her husband's waning interest in her. She said she was depressed upon the other women to carry the report of her conduct to her husband, with embellishments, and that they did so. She maintained that a man of her husband's caliber and character would not suffer mental anguish because his wife flitted, and her attorney sought to show that he had been previously married and divorced, and that he had had affairs with other women, so numerous as to make him blasé.

Judge Crothers commented upon a question as to whether Bullard is a church member. The court held the question to be irrelevant and remarked that if divorces were limited to members of the church and to people interested in community welfare there would be few divorces. The case is being continued.

## RAILROADS AND THE PUBLIC.

Much has been and is being said regarding the unstable character of railroad securities and the general financial condition of the railroad corporations of the country. This is repeatedly referred to both by the railroad operators, who desire federal legislation in their behalf, and by the advocates of government ownership of the railroads who look lightly upon the prospect of taxing all the people to meet deficits in the operations of the railroads. A most timely observation on this point was made in the recent report of Dr. Arthur Twining Hadley, president of Yale university, as chairman of the Railroad Securities Commission. Said Mr. Hadley:

"There was a time when the efforts of the banking authorities in most of the States were directed toward getting the discount rates as low as possible. The bank commissioners in those days regarded themselves as the representatives of the merchants who wanted loans. They made little or no attempt to safeguard the stockholders and creditors of the bank. Those were the days of wild-cat banking. The country has passed beyond that period—not solely or primarily because it obtained a national banking law, but because it administered that law with due regard to the security of the stockholders and creditors of the bank as well as its customers.

"We have not developed our ideas of railroad management as far as we have developed our ideas of bank management. The subject is a more complex one. The apparent conflict of interests between the management and the customers is greater with a railroad than with a bank. As a result of this misunderstanding, the necessary development of railroad facilities, is now endangered by the reluctance of investors to purchase new issues of railroad securities in the amounts required. This reluctance is likely to continue until the American public understands the essential community of interest between shipper and investor and the folly of attempting to protect the one by taking away the rewards of good management from the other."

It is entirely correct to say that the American public has not had an adequate understanding of the essential community interest between shipper and investor and railroad corporation. But that understanding is increasing very rapidly, under the light of government operation. With Congress being obliged to appropriate a billion dollars to meet the losses of the government's experiment it was inevitable that interest in the subject should be aroused. Now the people are beginning to realize that this billion dollar deficit is resting upon their individual heads in the form of higher national taxation and higher living costs.

But who was to blame for the previous ignorance of the public regarding this very real community of interest between the producer, consumer, the railroad and the investor in railroad securities? Largely it was the railroads themselves. Mr. McAdoo in an order published shortly after he became director-general of railroads said that the policy of "to hell with the public" was to be discontinued. That was an indirect promise that Mr. McAdoo was going to adopt a new policy, which he did not fulfill, and a cheap bid for popularity. An earnest search by antiquarians in literature and others failed to disclose that any railroad executive ever said "to hell with the public." The responsibility for the remark seems to lie between a comparable expression by the late Jay Gould and a cryptic newspaper reporter. It is true, however, that the majority of the railroad executives of the country have acted that policy year in and year out and it does not matter whether it was ever reduced to the spoken phrase.

A change of view has been forced upon the railroad operators and they are seemingly anxious to be permitted to put it into effect. They are making very frantic efforts now to point out that this community of interest exists, and cannot be ig-

nored. They are now trying to exploit the very thought for which in the past the student of national affairs was pushed brusquely aside for uttering.

They have had a severe teacher and the methods have been painful. But the pupil appears to have learned his lesson and in that there is hope for better conditions in the future.

## HE SPOKE FOR HIMSELF.

Some advocates of the League of Nations have asserted that the late Theodore Roosevelt would have supported the project. This has called forth rejoinders bitterly to the contrary and there has been considerable debate as to the view Colonel Roosevelt would express were he now alive. It is impossible, of course, to say that he would have approved the covenant that was adopted at Paris or that he would have condemned it. But fortunately there are not many subjects of importance which were discussed during the former president's lifetime on which he did not express a very definite opinion.

The League of nations was no exception. He referred to it several times and with special emphasis in his Lafayette Day address in the New York City Hall in September, 1918, two months before the armistice. For those who are inclined to argue the point his remarks may prove interesting:

"Let us support any reasonable plan, whether in the form of a League of Nations or in any other shape, which bids fair to lessen the probable number of future wars and to limit their scope."

"I shall be delighted to support the movement for a League to Enforce Peace or for a League of Nations if it is developed as a supplement to and not a substitute for the preparation of our own strength and the cultivation of an intense Americanism which will make us able to use that strength for ourselves and for the well-behaved peoples of the world."

"Let us set our faces toward justice; let us prize peace as the hand-maiden of justice; let us stand for right within our own borders; let us recognize our duty to make the world a little better place for all liberty-loving and well-behaving nations in the future."

Theodore Roosevelt never put the welfare of America second to any other consideration. But neither was he afraid to assume responsibilities in the relation of this country to the rest of the world. Essentially a man of action, he would have been, as he always was, for any plan that contemplated definite action to prevent future avoidable wars.

## AUTOMOBILE THIEVES.

A bill has been passed by the United States placing a punishment of \$5000 and imprisonment for five years in a federal penitentiary upon any person or persons guilty of transporting stolen automobiles in interstate commerce. When this bill becomes a law, as it surely will, one more measure against the automobile thief will be effective.

It is well that Congress has seen fit to enact laws to combat this form of stealing. The State and municipal authorities appear loath to deal sternly with offenders. By a law enacted at the last session of the California legislature stealing of an automobile was made a felony. So was driving a car while intoxicated made punishable with imprisonment. But so far the executive authorities are disposed to be lenient with the guilty. The police courts accept excuses and defeat the intent of the law by granting probation or by suspending sentence.

The proposed federal law will reach those who steal machines and take them into other States. It properly imposes severe penalty. The automobile has become a most valuable family utility. It is a means of transportation to and from work, of hauling crops to the market and taking home supplies and of recreation. As such it has displaced the horse, and horse-stealing used to be punished by hanging.

All the laws, both State and Federal, will serve to stamp out automobile stealing if the executive and judicial authorities enforce them, and this plain duty should not be ignored nor compromised.

Railroad earnings for August showed a big loss over the previous year and were the lowest of any year since 1915. Yet the government railroad administration had more traffic offered it than it could handle. There was shortage of cars to move the crops of the country at the time they should have been moved. As railroad men have described it, there was to be accommodated the largest volume of traffic on record. Still the railroads suffered a loss in earnings.

## MR. BURLINSON.

There has been so much smoke concerning Postmaster-General Burlinson's political activities in connection with postmasterships that it is well to have a little investigation to see just how much fire there is beneath it. Mr. Burlinson has made a plausible reply to the reasoning brought against him by one mission, but the mere fact that the resignations have taken place in the way that they have is enough to warrant Congress in looking into the whole long wrangle.

The investigation will be conducted by committees controlled by the Republicans, but any attempt to make political capital out of it instead of to find the facts will react in Burlinson's favor. If the Commission backed backward in its attitude toward Burlinson, it would be a reflection on the rule, this should be brought out. On the other hand, the specific items in its criticism of him should be rigidly examined.

There is no denying the existence of a certain amount of sentiment in Congress itself against the merit system, especially when it operates against one's political friends. Ex-Speaker Clark made a slighting allusion the other day to the work of the Civil Service Commission, because it had regulated in favor of Republican appointments in his district than he could politically afford.

The country will not care about this sort of thing, but it will want with interest authoritative information whether or not the Postmaster-General has been interfering with what is a settled policy of the Government.—New York Evening Post

## NOTES and COMMENT

Despatch from Pendleton, Ore.: "Mrs. Gilman Fulson, wife of a rancher, was shot and killed by the accidental discharge of a shotgun." Singular omission in the account. It doesn't say that the gun wasn't loaded.

The President's illness is proving to be more than a casual indisposition. Besides being unfortunate just at a time when such momentous things are up for settlement, it is unfortunate for those out to make a political point against his policies. Personal attacks under the circumstances do not make a hit with fair-minded people.

At first it may not have seemed that there was not so much excitement over this world series as over some of other years, but appearances were deceiving. The steel strike in the East and the car strike here figured very poorly as counter attractions. The score board is the great magnet.

The despatches say that "thousands of British are to settle in Mexico." Has some appearance as of a purpose to beat the Germans to it.

The Arkansas colored folk, if the accounts are to be relied on, have started something in their uprising. All that has ever been necessary to get up a lynching in the South is to make a hue and cry. This will not be difficult if the reported discovery of a plot to murder whites wholesale is confirmed.

Some of the publications of prominent Teuton actors in the war are informing us of several things that we already knew. Von Eckhardt says that Carranza was Germany's friend, for one thing. If we didn't have some knowledge of this we made some accurate guesses.

That home brew at Colusa certainly was serious. The fourth person has died from imbibing of it. It is thus demonstrated that not every concoction with a kick is a safe substitute for that which went under the ban July 1.

In settling the British railroad strike it is shown that Lloyd George is still on the job with his old-time pep. No other ever picked his country through so many and such menacing perils.

Whatever the rights of labor controversies may be, nothing whatever is gained by efforts to wreck passenger trains on lines where there is a dispute. Civilized people ought to recognize this fact.

London seems to be over racing problems. No sooner is it announced that the railway strike is in a way to be settled than it is also announced that "London faces the question of skyscrapers." It will be a satisfaction to Americans to realize that this question has been met and disposed of for them. The country is unqualifiedly skyscraper.

The war measures to restrict immigration have worked so well that there is a prospect of more drastic permanent ones being enacted. Undesirables are likely to swarm here from everywhere. This is done. The war and its aftermath have corrected much of the sentimental stuff about a "home for the oppressed."

The Richmond News isn't impressed with the suggestion of the governor of New York: "The governor of New York says people must learn to eat what they can afford. Well, what in blazes can they afford? They certainly can't afford to eat hay—it's \$20 a ton."

## SPIRIT OF THE STATE PRESS

Lost in a blinding rainstorm and fog, Casey Abbott, mayor of Calexico, as passenger, and Lieutenant H. O. Payne, pilot, traveling from Calexico to Los Angeles, were forced to land in a grain field near Beaumont Saturday night. They arrived in Los Angeles yesterday with a telling story of the inefficient attempt to combat the elements, a trip that came near resulting in death to the intrepid pair.—Holtville Tribune.

The meteor that fell in this vicinity on Saturday is not the only visitor of the kind that has come this way. In 1892 George H. Stout and others reported that a meteor had fallen on Table Mountain. The report attracted widespread attention. Scientists came to Oroville in large numbers; and letters from savants were received from all parts of the United States and Europe. In 1893, Charles Elmendorf, who resides some miles from where the meteor was reported to have struck, discovered a fragment, which was decided to be one can a fountain pen, but if one printed legibly with the fountain pen instead of "dash-ing off" something with it. It would be as happy for one's correspondents as if pocket typewriter, were a commonplace. Some say that letter-writing is becoming a lost art; perhaps letter printing would restore it.—Christian Science Monitor.

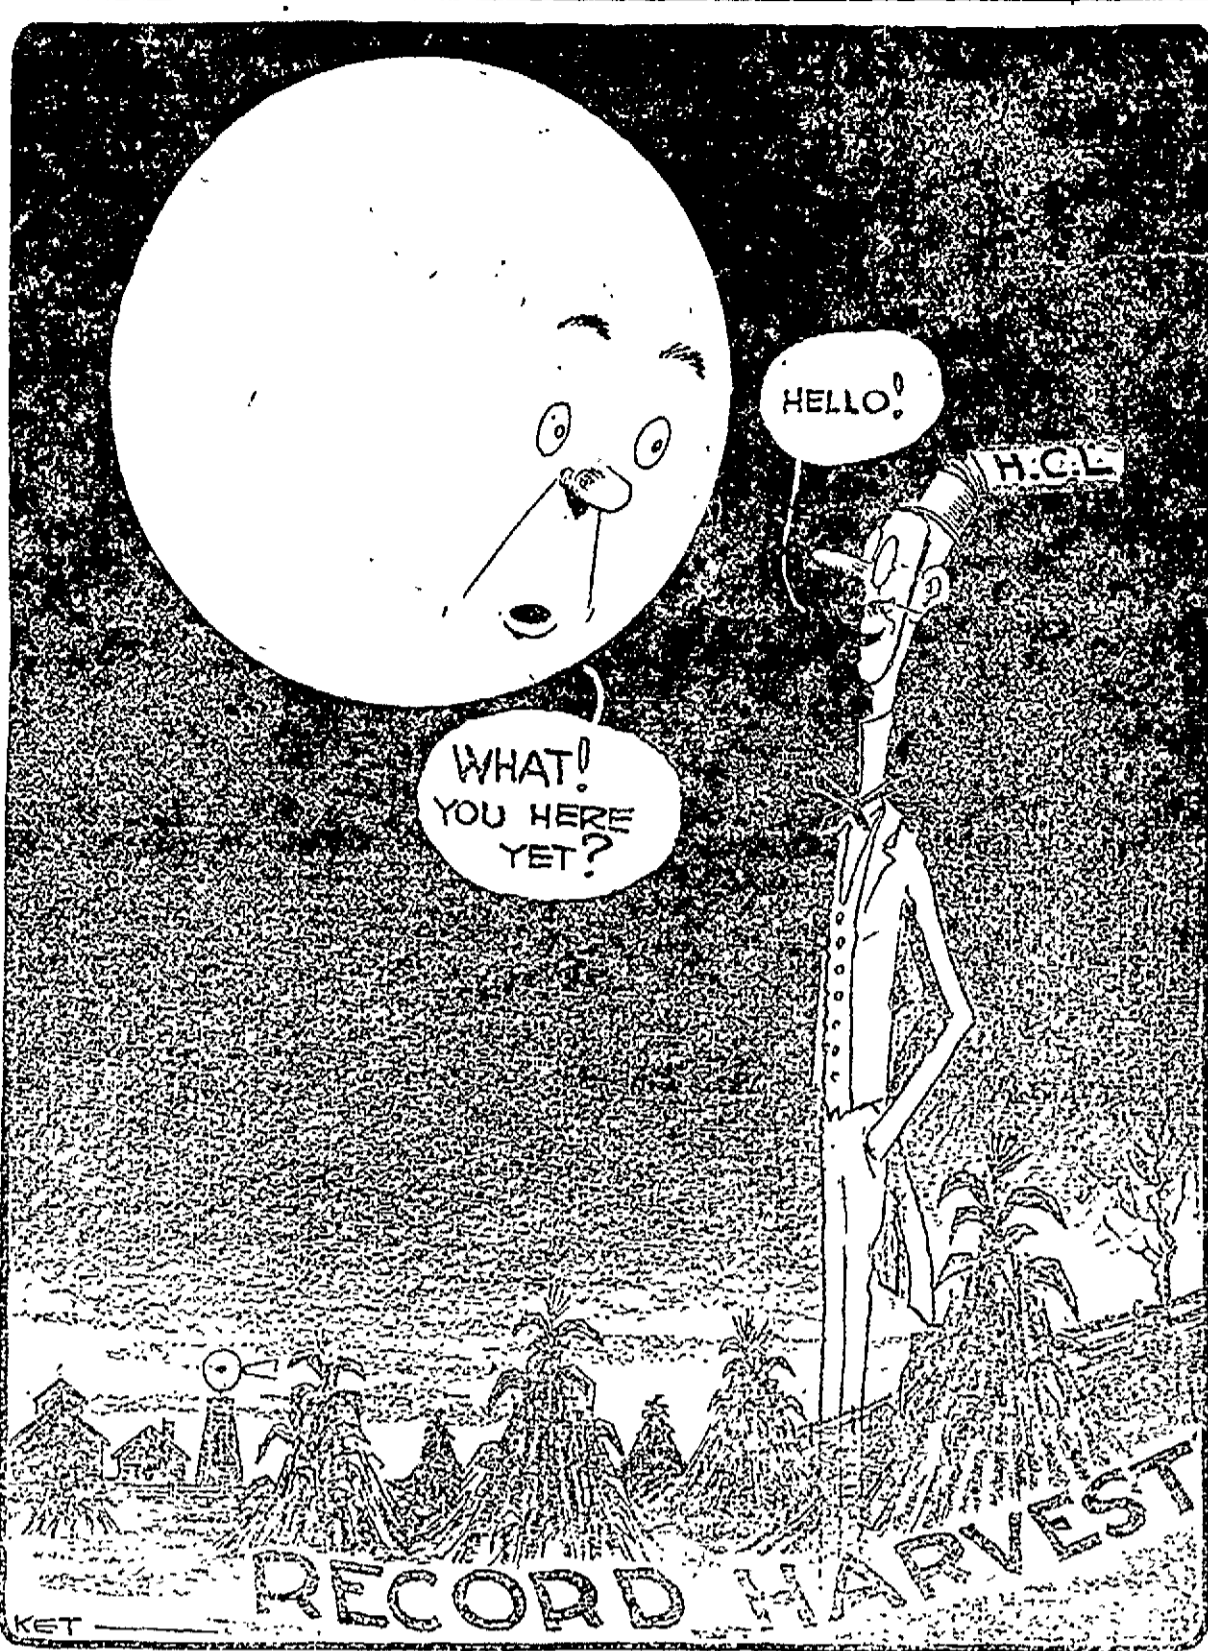

Contrast the way California is treating Senator Johnson with the way Oklahoma treated Senator Reed. California is in favor of the League of Nations, as Oklahoma is, and in both these states the position is argued on the unpopular side. But in California Senator Johnson gets an ovation while in Oklahoma Senator Reed is rotten-egged off the stage. To be sure, Senator Johnson is a great man, whom everybody honors, while Senator Reed is a very small man, whom nobody respects.—Fresno Republican.

Of all reasons given for a strike, perhaps the most absurd is that of the "black workers' union." In the film workers' union, seven hundred of them struck recently, "just to test the strength of their union." But movie producers in New York bluntly announced that the making of films would go on as usual, as there were many capable persons seeking jobs.—Sacramento Bee.

## PASTORAL OR BACCHANAL?

If the law is going to permit the farmers to make as much as they like of hard cider, for their own use, the "black for farm movement" may receive a vigorous boost from an unexpected quarter.—Boston Transcript.

George Carlin Simmons lectures, Auditorium, evening.

## IS WORTHY TO BE REVOL-UTIONIZED?

The movement among British educators to have children taught to print instead of to write their letters apparently goes forward; one may believe that it will eventually spread throughout Anglo-Saxondom. Only because the use of typewriters is making people more and more discontented when confronted with the puzzle in penmanship.

The argument of the British educators is that if an epistle takes longer to print than to write the loss of time is more than compensated by the greater speed with which it can be read, and the argument seems not unreasonably to be making more and more converts. One cannot carry a typewriter in one's pocket as one can a fountain pen, but if one printed legibly with the fountain pen instead of "dash-ing off" something with it. It would be as happy for one's correspondents as if pocket typewriter, were a commonplace. Some say that letter-writing is becoming a lost art; perhaps letter printing would restore it.—Christian Science Monitor.

## WOODEN MEN.

The cable and that the American members of the peace conference were under an "out" to do about the Prime Minister. The absence of Americans from Washington. There are five out of a group of members in Paris, Mystery House having some back from London, and three five couldn't know what they thought until Washington had told them.

This is indicative of the one-man power that prevails at headquarters—and headquarters may be anywhere from Paris to Portland. What is the use of spending any more money on the conference, now that the American representative is not there? It would be cheaper for them all to come home and to have the bills paid and the current expenses stopped. If the delegates do not know what they think until they hear from Washington, and Washington is removed to the Pacific Coast, the people will think for themselves and will think it is time for the delegates to come home.—Hartford Courant.

## CHEAPER CLOTHES.

Out of the gloom of high prices comes a voice of hope. Delegates to the convention of the National Association of Retail Clothiers, now in session at Chicago, are spreading the news broadcast that a reduction in the price of clothing will be realized in the near future. They declare that before long a man will not be asked to part with \$75 or \$80 for a business suit and that eventually prices will be down to something near the old levels. Furthermore, the dealers say they will be glad of it, for there will be increased volume of trade with correspondingly increased profits at the lower prices.

Tailors contend that the advance in prices is due solely to the increased cost of materials and labor, and that as soon as they can buy their goods cheaper they can reduce prices to their customers, which they are eager to do, because men will buy more suits.

These may be straws, but they bring indications of favoring winds and stimulate the hope that there is a real movement toward lower prices in the necessities of life. Food is the most important item in the cost of living, and it seems there will be watched with the keenest interest. But if the cost of clothing and rents can be brought down nearer to normal levels the result will be beneficial to all and the wage worker's dollar will take on additional purchasing power.

Every movement tending toward lower price levels will be greeted with enthusiasm by the American public. No man can now render better service to his fellows than by aiding the movement.—Washington Post.

## HEALTH and HADDINESS

"Shock" From Burns Really  
Hunger of Muscles for Air

By DR. LEONARD K. HIRSBERG,  
A. B., M. D., M. C.  
(Johns Hopkins University.)

When a child is severely burned over a fairly large area of the skin, the little one often dies some hours or days later. There seems to be no great reason for this after the pain and inflammation have been relieved. There was no loss of blood, no hemorrhage. Death was due to "shock."

Shock sometimes drives older victims to the point of distraction as well as to death.

Prof. W. B. Cannon of the department of physiology, Harvard University, has thrown much light on the mystery of shock. About 15 or 16 years ago it was discovered that bits of tissue or tissue extracts injected into this blood caused depressed blood force and symptoms of shock.

Last year two French army surgeons, Drs. Delbet and Quemi, determined independently that the debris and torn bits of tissue at the place injured, burned or diseased produce destructive ferments or enzymes, which enter the blood stream and bring about a loss of the reserves of soda and other alkalis in the human fabric. This condition goes under the name of "acidosis" or shock.

The acidosis of shock must not be confused with old wives' tales about "acid in the blood," "acid states," "uric acid" and other ancient absurdities long ago discarded.

When blood pressure falls, the flow of blood becomes slower. Under such circumstances the number of trips of the red blood corpuscles between the lungs for fresh oxygen and the tissues is reduced five times to one.

Air hunger is the result. Re-breathing expired air, a decrease of fresh oxygen to the tissues makes lactic acid instead of carbonic acid. The latter evaporates and is volatile. Lactic acid is not. It cannot be breathed away. Instead it "picks on" the soda and forms lactate of soda, which consumes still further the alkali reserves.

Acidosis is, therefore, not in itself serious, but a signal that air and oxygen are needed by the tissues.

Some muscles can go without air for three hours. Some tissues, such as the eyes and nerves, cannot go eight minutes without fresh oxygen, unless arterioles are damaged.

Treatment of shock plainly must be prompt and complete. Burned, torn or injured tissues must be tightly "roped off" from the rest of the anatomy. The tied portion and the tissues around it must not be removed before the surgeon operates on the damaged part.

Shock is accompanied by cold, because the heat-making tissues are checked and much perspiration causes additional loss.

Hot water bottles and other warmth must be applied. Hot drinks and hot blankets help much.

Although there has been no hemorrhage or loss of blood, transfusion of blood or gum salt solution restores blood pressure and heat.

## INDUSTRIAL CONFERENCE IN CLASH OVER RULES; LANE NAMED CHAIRMAN

BY ASSOCIATED PRESS.  
LEADS WIRE TO TRIBUNE.  
WASHINGTON, Oct. 7.—Secretary Lane has been chosen as permanent chairman of the Industrial Conference in session here. The secretary told the conference that President Wilson might be able to address the delegates before they adjourned.

The report of the committee on rules provides for all sessions being open to press and public.

Under the rules, voting will be by groups representing employers, organized labor and the public. The majority of delegates in each group to decide that group's attitude, but no expression or conclusion shall be arrived at unless all three groups are in accord.

The two permanent secretaries of the conference will be Lathrop Brown, former president of the American Federation of Labor, and Joseph J. Cotten, Lane's secretary.

Disagreement over rules proposed for the governing of the industrial conference resulted in this morning. It will meet again this afternoon.

SPARGO OBJECTS TO RULES.  
The proposed rules provided that all conclusions and decisions must be arrived at by unanimous vote of the three groups representing capital, labor and the public. While the decision of each individual group would be by a majority of the members of that group, the rule was attacked by John Spargo of New York, a delegate representing the public.

Spargo declared the conference might as well adjourn if the provision of the rules was adopted. He said a majority vote of any group was necessary before a member of the group could introduce any subject for discussion. Such a rule, he asserted, hindered especially the public group, which was composed of delegates representing homogeneous interests like the labor group, but contained men and women of diverse activities. He objected particularly, because, he

said, there was no provision for minority expression.

Thomas L. Chabourne of New York, replying for the committee, declared the provision was believed necessary to obtain effective discussion instead of debate.

On motion of Frederick P. Fish of the employers' group, the conference adjourned to allow each group to consider the rules separately.

Other provisions of the rules reported by the committee were that the meetings be open to the public and the press and that there be two daily sessions, from 9:30 a. m. to 12:30 p. m. and from 2:30 p. m. to 5:30 p. m. It was especially stated that there should be no meetings on Sunday, indicating that the conference was expected to continue two weeks or more.

The rules were presented by W. D. Mahon of the labor delegation, chairman of the rules committee.

In accepting the chairmanship, Secretary Lane said he regretted the advice of President Wilson and "inspiring word" he might say to the conference and added that news from the White House was that the president might be able to address the conference before it adjourned.

Discussing the purpose of the conference, Lane said the men "who talk of revolution in this country forget we have had our revolution, which was democracy."

"A democracy does not settle things that way," he declared.

PEOPLE ONLY OVERLORD.  
There is only one overlord in the United States, Mr. Lane continued, and that is the people of this country.

On motion of Gavin McNab of San Francisco the conference voted unanimously to invite Secretary of Labor Wilson, the temporary presiding officer, to sit with the conference and advise its deliberations.

Nomination of Lane as chairman of the meeting was made by Frank Morrison, secretary of the American Federation of Labor. It was seconded by Robert S. Brookings of St. Louis, a delegate to the public.

President Gompers of the American Federation of Labor, speaking on the motion, said Secretary Wilson had been suggested for permanent chairman and that organized labor's assent to Mr. Lane's election was in no way a reflection on Mr. Wilson. Mr. Gompers declared the statement of labor's attitude necessary to dispel intimations that Mr. Wilson was displeased because of his sympathy with the workers. The labor leader was applauded as he seconded Lane's nomination.

Replying, Secretary Wilson said his whole life had been devoted to the cause of the workingman, but that the public group, which was permanent good could come from injustice. He declared the conference was paramount to any personal issue and paid a high tribute to Secretary Lane.

## Von Der Goltz and Staff Join Russ Reds, Is Report

COPENHAGEN, Oct. 7.—General Von Der Goltz, commander of German forces in the Baltic provinces whose activities there recently led to sharp exchanges between the allied powers and Germany, has, with his staff, joined the Russian Bolshevik forces, according to a Berlin despatch to the National Tidende, quoting a report from Petrograd Telegraph Agency. There is no confirmation of the report.

## TWO INJURED IN AUTO ACCIDENTS

Two automobile accident victims—one a small boy and the other a woman—are at their homes today, recovering from serious though not fatal injuries, following yesterday's collisions.

Mrs. H. Wright, 721 Market street, is suffering from a fractured hip, severe lacerations of the face and extreme shock, following a collision between her automobile and another car at East Twelfth street and Twelfth avenue.

Mrs. Wright was riding in the car with Mrs. T. Schneider, 1519 Fifteenth street, when their machine crashed into another motor vehicle driven by E. D. Pederson, 2035 Rutherford street. Mrs. Wright was thrown from the automobile to the pavement. She was treated by a physician at Thirteenth street and East Fourteenth street and taken to her home.

Mrs. Schneider was not badly hurt.

Suffering from bruises on the chest, William Souza, 8 years old, of 107 Third street, is at home today, while physicians believe that internal injuries may prove complicating. The boy was struck by an automobile, driven by John Newman, 261 City street. Newman picked up the child and carried him to the receiving hospital, where the lad's injuries were dressed.

## BRO. GREGORY'S MOTHER IS DEAD

Mrs. Elizabeth Mallen, mother of Brother Gregory, president of St. Mary's College and a pioneer resident of San Francisco, died yesterday at St. Joseph's hospital after a long illness.

Mrs. Mallen had three sons, who entered the priesthood and who have achieved honor within the Catholic church. Besides Brother Gregory there are Brothers Valdesol, head of St. Vincent's academy, San Rafael, and Rev. Father E. T. Mallen, C. S. P., of Chicago. Mrs. Mallen is survived by one daughter, Miss A. P. Mallen.

## VESSEL AFLOAT AGAIN

NEW YORK, Oct. 7.—The steamship Pacific Bridge, aground on Barnegat Shoals since Saturday, was successfully refloated last night. The vessel went ashore while en route from Rosario and Montevideo to New York with grain.

## THREE STEEL TOWNS UNDER MARTIAL LAW

Gary Mob Terrorizes Citizens, But Federal Troops Restore Order; Shoot to Kill, General Wood's Order

BY INTERNATIONAL NEWS SERVICE.  
LEADS WIRE TO TRIBUNE.  
CHICAGO, Oct. 7.—Gary, Indiana Harbor, East Chicago, under martial law, are quiet today, their streets patrolled by veterans of the European war, their steel mills protected by soldiers of the Fourth division, with orders from Major General Leonard Wood to shoot to kill should radical leaders or striking steel workers attempt to carry out the threat made yesterday to "drag the non-union workers from the steel mills."

The federal troops rushed to the three cities late yesterday after municipal authorities admitted the situation beyond their control, are armed with field pieces—one-pounders capable of ten shots a minute—with hand grenades, trench mortars, machine guns and rifles. About 400 additional troops on route from Fort Sheridan and Omaha are expected to arrive in the troubled district about 10 o'clock today.

The situation in Gary assumed dangerous proportions late yesterday when strikers led by about 500 men in overseas uniforms paraded the streets in defiance of orders issued by the city authorities and officers of the Indiana state militia rushed to the city late Saturday.

MILITIA DODGES MOB  
The militia was powerless, and to avoid a clash with the excited strikers, turning close to five thousand, was withdrawn from the route of the parade. Emboldened by this acknowledgment of helplessness, the strikers held possession of the streets for more than an hour, then threatened to march on the county jail at Crown Point and forcibly release several of their number arrested during the past week during labor disturbances. They shouted defiance to the city authorities and declared their intention of storming the steel mills and "pulling out non-union workers."

After a hurried conference with officers of the militia, Mayor Hodges appealed to Governor Goodrich for federal troops. Governor Goodrich instantly got into communication with Secretary of War Baker at Washington and within an hour troops under Major General Leonard Wood were en route to Gary from Chicago, after a hurried survey of the situation. General Wood placed the three cities under martial law, at the same time ordering the arrest of all men wearing uniforms who were not a part of the armed forces called to preserve order.

TAKE YOUR MAN IS ORDER  
General Wood's orders were to arrest these men—"get your man dead or alive"—if he violates the law.

Under these circumstances the militia in the Calumet district which have been operating with greatly reduced forces are expected to resume practically normal production this afternoon.

The striking steel workers have been returning to work in numbers during the past three or four days and for a while it was thought the strike in this district was broken.

## TWO HUNDRED EXECUTED BY BOLSHEVIKI

WASHINGTON, Oct. 7.—Two hundred persons were executed by the Bolsheviks, following an investigation, just concluded, by the Bolshevik extraordinary commission at Moscow, as to the reasons leading to a recent defeat of the Bolsheviks by the allies, according to a despatch received by the state department this afternoon from Swedish sources.

The fuel scarcity in Petrograd has become acute, the despatch added.

## Gen. Mangin Sent To Southern Russia

PARIS, Oct. 7.—General E. Mangin, brother of the famous commander of the French army of occupation on the Rhine, was today reported by the government to go to southern Russia on a mission to General Denikin.

(General Denikin is commander of the anti-Bolshevik forces in southern Russia. It was recently reported that he had assumed command of the Ural mountain front also, succeeding Admiral Kolchak.)

But, city officials say, radical agitators who have been secretly working among the strikers, succeeded in stirring up discontent among the foreigners among the strikers.

## TWO SHOT IN BUFFALO

LEADS WIRE TO TRIBUNE.  
BUFFALO, N. Y., Oct. 7.—Two men were shot, several were beaten and over a hundred revolver shots were fired near the Lackawanna steel plant this morning when a mob attacked a Buffalo and Lake Erie traction car, en route to the steel plant with workers.

The riot followed breaking up of a crowd of 500 men earlier in the day.

## MORE MILLS OPEN

BY ASSOCIATED PRESS.  
LEADS WIRE TO TRIBUNE.  
PITTSBURGH, Oct. 7.—A number of steel plants in the Pittsburgh district are opening again today, according to reports from company sources. Some of the mills are operating full time, the companies say, while others which had been "down" started working in part. Union leaders termed the efforts of the employers to start operations "a failure" and they declare mills reported to have resumed work Monday have very few men on the job.

## KING ALBERT IS DUE HERE NEXT FRIDAY

Belgium Ruler Speeding Towards Chicago Today; Queen Elizabeth 'Anxious for Dip in the Santa Barbara Surf'

By AUGUSTIN LARDY  
International News Service Staff Correspondent.  
ON BOARD KING ALBERT'S SPECIAL TRAIN, AMBOY, N. J., Oct. 7.—King Albert, from the windows on his sleeping car this morning got his first glimpse of the Middle West. At midnight his train stopped at Amboy, a siding of the New York Central railroad, ten miles east of Ashtabula. Then his train resumed its journey, passing slowly through Cleveland on its way to Toledo, the home of Grand Whitecliff, American ambassador to Belgium. The king will make a speech from the steps of the public library in Toledo about one o'clock, immediately enroute for Chicago, which he will reach at 3:30 p. m.

He will reach Oakland, Calif., Friday at 5:45 p. m., departing an hour later for San Francisco. Then he goes to Santa Barbara, where he and the queen and the crown prince will rest about four days.

Queen Elizabeth is looking forward to the sea bathing at Santa Barbara.

## Girl Students to Edit Daily Paper

BERKELEY, Oct. 7.—Twenty young women in the University of California will become journalists for a day on October 12, when the Daily Californian office is turned over to them and the women's annual edition is issued. Miss Doris Peoples and Miss Arline Verne will name a staff of a score of college girls to assist in the departments of the paper. From news gathering to distribution, the work will be done by the women.

## SHANTUNG DEAL STIRS RAGE OF CHINESE WOMEN

How women students are addressing the crowds in China, explaining to them the Shantung problem and how the women of China are taking active part in the Chinese boycott against Japan is told by Mrs. Paul H. Reisch, wife of the American minister to China, who recently resigned. Mrs. Reisch arrived yesterday on the army transport Thomas.

Mrs. Reisch recalls that when she went to China six years ago Chinese women had no voice or influence. When China began to educate its girls a great social revolution was inaugurated.

"All of China is awakening and the masses are beginning to respond to the influences of education," said Mrs. Reisch. "The boycott is still in force and will probably exist until the Shantung problem is settled to the satisfaction of China."

Mrs. Reisch will remain in San Francisco until the arrival of her husband on the Pacific Mail steamship Venezuela. Reisch has been mentioned for the post of special counselor of the Chinese.

## NORWEGIAN DRY LEAD IN ELECTION

COPENHAGEN, Oct. 7.—With the returns from a number of districts still missing, the Norwegian "dry" were leading this afternoon in the plebiscite on prohibition, said a despatch from Christiania. The figures given were:

For prohibition, 157,000; against prohibition, 112,000.

The Norwegian premier threatened to resign if the prohibition proposal was rejected.

Chinese Hangs Self At Angel Island

SAN RAFAEL, Oct. 7.—Fong Fook, a Chinese en route from China to Mexico, Mexico, hanged himself today at the Immigration Station, Angel Island, with a towel tied to a gas fixture. He was 32 years old and had been held for observation since his arrival a few days ago on the Persia Maru.

China Chin Sailors, with light velvet facings, are offered while they last at \$5.75 each.

We know you will be interested in the entire display.

—Millinery Section, Second Floor.

Clay at 14th and 15th Sts.

## Y. M. C. A. WORK IS DEBATE TOPIC

SANTA BARBARA, Oct. 7.—Bitter criticism of the Y. M. C. A. in its Army work caused a heated discussion on the floor of the Southern California Methodist conference. Several times Bishop Adna W. Leonard, president, rapped for order while two or more ministers were talking at once.

Chaplain Arthur Torrance, of Los Angeles, who served two and one-half years with Army and Navy forces in and near Vladivostok, criticized the "Y," but was stopped by Bishop Leonard, who called upon him to "read the author's report."

Torrance declared that a eulogistic report by Chaplain Thomas Grice on the Y. M. C. A. work was misleading. A soldier in uniform who declared that he received better treatment in a German hospital than he did from the "Y" precipitated the discussion anew.

Dr. George R. Graft of East Hollywood was another "Y" critic. Chaplain Grice said that each "Y" but received an average of \$62,500 for upkeep and work and each secretary \$16,000, and that these allowances were less than the amounts allotted by the Salvation Army and the Knights of Columbus. His statement that the "Y" did more good with its funds than the other organizations named brought expressions of doubt.

## RED CROSS SHOP SENDS OUT NEW PLEA FOR GIFTS

Articles are needed for replenishing the stock of the Red Cross shop, at Oxford street and Allston way, and every one having useful property of any nature which they wish to give to the Red Cross are urged to telephone the Berkeley chapter.

"We can use anything that will be of service to any one," said Mrs. Jo Mills, chairman of this department. "Many people have some discarded articles of furniture, or some other things capable of giving service, but now simply kept in storage. We are sure that if such people knew the excellent service they would perform in sending such articles to the Red Cross that they would let us know at once."

Merchants of the city desiring to aid the Red Cross have co-operated generously with the Berkeley chapter in maintaining the shop, and high appreciation of their work has been expressed by the women in charge of the activity.

## New Jugo-Slavica Ministry Formed

PARIS, Oct. 7.—A new ministry for Jugo-Slavica has been formed in Belgrade, according to despatches. M. Trkovich has been named premier and M. Trumbitch minister of foreign affairs.

PENROSE SAYS  
DRY BAN WILL  
GO BY NOV. 1

WASHINGTON, Oct. 7.—War-time prohibition will be lifted before the end of the year.

Definite assurances of this were offered this afternoon by Senator Penrose of Pennsylvania, one of the finance committee, and other Republican leaders in charge of the senate's legislative program.

Determined efforts are being made by them to get the peace treaty ratified with reservations before the end of the month.

Some of them predicted that ratification would come "sooner than anybody now anticipated, maybe within ten days or two weeks, maybe not later than November 1."

With ratification would come the lifting of the war-time prohibition, according to information they had received from sources close to the White House, it was stated.

SCHOOL MEETINGS  
TO BOOST BONDS

A series of meetings to boost the school bonds issue which will come before the citizens of Oakland for vote on October 21, is being arranged by the Parent-Teacher Associations in the various schools.

Oakland High School P. T. A. announces a program in Chabot Hall Friday afternoon, at which all mother-voters are invited to listen to Superintendent of Schools Fred Hunter discuss the bond issue.

Lockwood School P. T. A. is giving its children's program tomorrow, which will show the work in the school.

Melrose Heights P. T. A. is giving a reception in the auditorium tomorrow afternoon, and will ask the women of the community to listen to an address by Superintendent Hunter.

Widow Loses Suit  
For \$10,000 Damages

Mrs. Maria Souza, mother of five children, whose father was killed by falling coal while he worked on the steamer Tanager at the Western Fuel Company's dock in San Francisco, Sept. 1918, lost a judgment for \$10,000 damages yesterday when the Circuit Court of Appeals reversed the decision of Judge Maurice Dooling of the United States District Court.

Following the accident, the plaintiff filed a claim with the Industrial Accident Commission and was awarded \$2500. The company appealed on the ground that the commission lacked jurisdiction and the position was maintained, the award being annulled by the State Supreme Court. Then her attorneys filed a suit in the District Court, where the \$10,000 award was won. The award was annulled by the Court of Appeals on the ground that the accident happened under the "fellow servant" doctrine. It was claimed that Souza met his death as the result of carelessness of the hatch tender and not of the defendant company.

The latest decision was made by Judge William B. Gilbert of Portland, Judge Erskine M. Ross of Los Angeles and William H. Hunt of Washington, D. C.

Wife Asks Divorce  
From 'Fussy' Husband

Claiming her husband, A. W. Hayward, is so fussy he cannot sleep at night if she moves at all, Mrs. Edith Hayward has filed a suit for divorce. If she moves in her sleep, she says, he will say, "For the love of Mike, can't you lie still a minute?" Thereafter, she says, she will be awake for fear of disturbing him and become nervous and worn out. She says the system has racked her nerves and rendered her ill.

Desertion is charged by John W. Gibson against Mrs. Ruth W. Gibson, and the plaintiff asks for judgment giving him their \$2500 worth of silverware.

'Policy of Health  
Center, Topic of  
Governors' SessionDR. WILLIAM PALMER  
LUCAS.

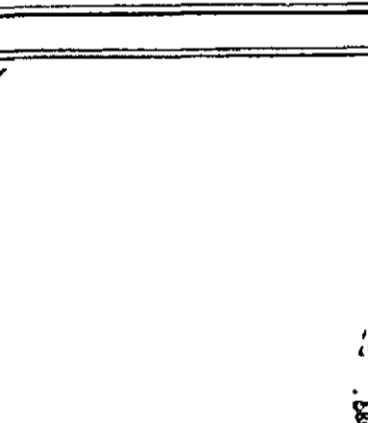

Dr. Lucas and Bolt Will Be  
Speakers at Meeting at  
Oakland Hotel.

Recent public health developments in France and the present and future policies of the Alameda County Public Health Center will be considered by the board of governors of the public health center on Thursday night at Hotel Oakland.

Dr. William Palmer Lucas and Dr. Richard A. Bolt will be the speakers. Dr. Lucas was chief of the children's bureau for American Red Cross in France during the war, his record as director of health work claiming international recognition. Dr. Bolt came from the east a few months ago to act as executive for the local center.

The board of governors invites the public to attend the notable lectures of Thursday night.

**DR. REED TO LECTURE.**  
Dr. Clarence Reed will lecture at the Unity Club tomorrow evening on "The Pyramids and the Sphinx," the first of a series on the temples and monuments of Egypt and Babylonia. This will be the club's first meeting of the season and will be held at Starr King hall, Fourteenth and Castro streets. A musical and literary program will be given.

WOMAN SLAIN,  
HER COMPANION  
ENDS HIS LIFE

Shortly after seeing his sweetheart, Mrs. Antonia Draga of Oakland, killed, Mrs. Antonia Draga, a waiter, shot and fatally wounded himself at Pete's Grill, 118 Taylor street, San Francisco. Klantja died early this morning. Mrs. Draga, who had gone to San Francisco with Klantja earlier, had been shot down by Samuel Palermo, a friend of her husband, as she and Klantja were dining together. Palermo was placed under arrest. Shortly after this, Klantja was removed to the central Emergency Hospital, a bullet wound in his chest.

"I shot myself," he told the police. "I want to die, because I loved her and do not want to live without her."

## WOMAN SHOT IN HEART.

Palermo, who lives at 776 Seventh street, says that he did not desire to kill Klantja, although he had wounded him slightly at the time he shot the woman. The woman, he said, he had intended to kill. He told the police that he had followed the two from Oakland and had entered the grill, where they were dining, and ordered Mrs. Draga to return to Oakland with him. This, he says, she refused to do, and a scuffle ensued. During this, he says, she stabbed him with a hat pin, and that he then shot her through the heart. He fired a shot at Klantja, too, he says, not to kill him but to wound him and prevent his interfering.

## ACTS FOR HUSBAND.

Mrs. Draga and her husband formerly owned a restaurant in Oakland. Palermo says that he is a friend of the husband; that Mrs. Draga and Klantja had been keeping company for some time past and that he had determined to break up the affair. He says that he had been appealed to by the husband to find her, when she disappeared yesterday, and set out for San Francisco, trailing them to the Taylor street cafe.

Deserted by Bride,  
Husband Gets Divorce

Three weeks after they were married, in New Jersey in 1912, Mrs. M. T. Mendosa, according to Mendosa, eloped with another man. He has sought her ever since, until two months ago, when he found her in Sunnyvale. His expectations that she would be happy to see him were disappointed. She told him she had married the other man and that she had tired of him. Mendosa sued for a divorce on the ground of desertion, and Judge Graham awarded him a decree. Mendosa lives at 2457 Bryant street, San Francisco.

Johnson at Portland, Flays League  
Refuses to Discuss the Presidency

PORTLAND, Ore., Oct. 7.—Senator Johnson arrived in Portland at 8 o'clock this morning. The Senator will speak at a Chamber of Commerce luncheon at noon. His main address in Portland against the League of Nations covenant will be delivered at the public auditorium tonight.

Replying to a question relating to his candidacy for the Republican nomination for President, Senator Johnson declared shortly after his arrival in Portland:

"I have no interest in the matter whatever. I am interested in just one subject. The interests of the common people of the United States are imperiled. This is a tremendously important contest in its possibilities for the future. I am thinking of our own country. In the eyes of a large portion of the press of this nation it is a reproach for Americans to strive for America."

Senator Johnson spoke at a luncheon where he was the guest of the Portland chamber of commerce. He said in part:

**PRESIDENT QUOTED.**  
"The President in his speeches at Salt Lake and subsequently has made plain that neither amendment or reservation must be made to the League of Nations. At Salt Lake in his resentment and ire he exclaimed as he read it, that a mild reservation which provided our armed forces should not be employed without the consent of Congress, would cut the heart out of the covenant and that its adoption he would consider a rejection of the United States construction of Article Ten, the far-reaching consequences of which cannot now be estimated or foreseen. He has differed apparently with his first but fortunately is now clear. At Spokane he said: 'It does not guarantee against invasion but it does guarantee against any permanent occupation of invaded soil,' a luminous exposition which will enable the most obtuse at once to comprehend its meaning."

"At Indianapolis he explained there is in that covenant not only not a surrender of the independence and judgment of the United States, but

15,000 Bolsheviks Are  
Taken by Kolchak

OMSK, Sunday, Sept. 25.—(By The Associated Press).—The advance of the Siberian armies under Admiral Kolchak since the resumption of the offensive September 1 had been carried out with a few reverses to a distance averaging 75 miles along the whole front. Fifteen thousand prisoners, a hundred machine guns and twenty-one heavy cannons have been captured in this movement, by which the forces of Admiral Kolchak brought the retreat to an end.

to them shall seem most likely to effect their safety and happiness."

"If there had been a league of nations with article 10, in 1776, there would have been no declaration of independence, no United States of America."

L. A. WAR BRIDE  
TRIES SUICIDE;  
JEALOUSY CAUSE

LOS ANGELES, Oct. 7.—Mrs. Adelle Tichenor, war bride, attempted to commit suicide by taking poison in one of the fashionable downtown hotels, because, she charged, Capt. W. A. Tichenor of Oklahoma had fallen in love with a pretty French girl while overseas.

Mrs. Tichenor comes of a prominent Louisville, Ky., family. She cabled her husband his freedom while he was in France. The couple were married during the war as the culmination of a romance in a Fort Worth, Tex., hospital, where she was nursing.

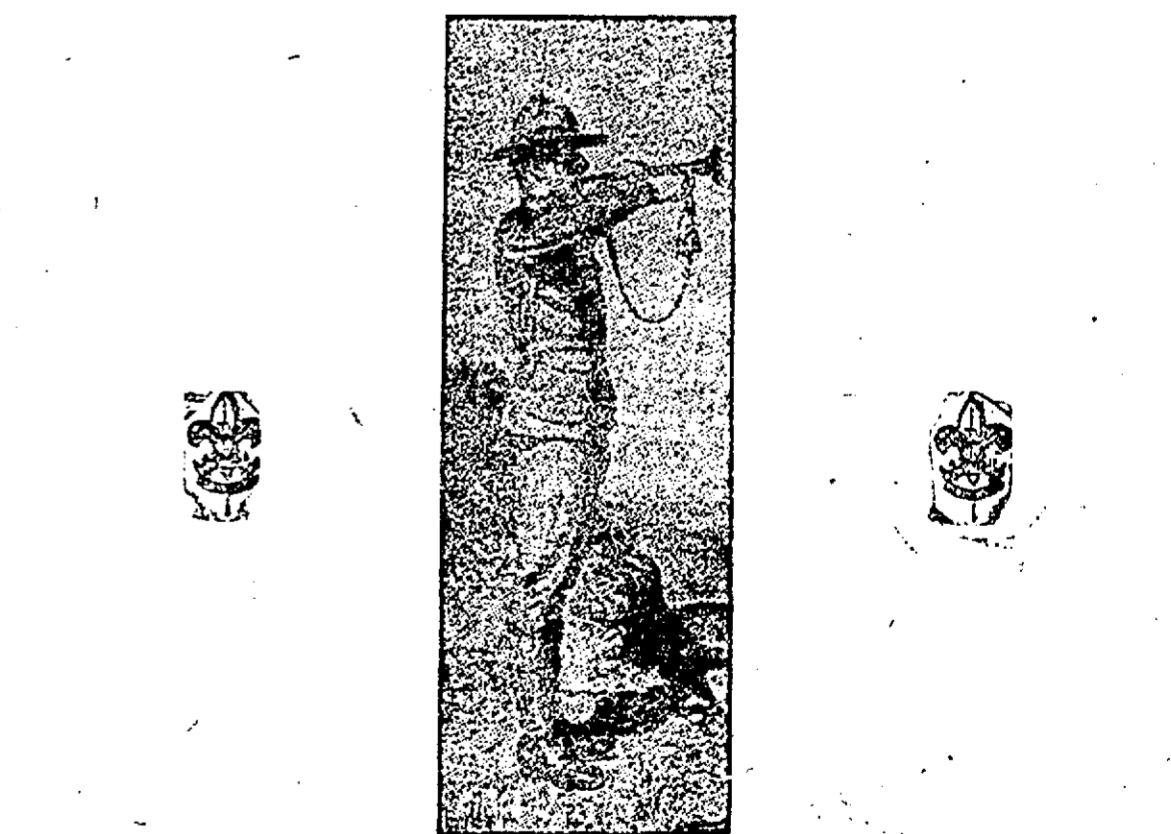

SIBERT URGES  
GAS DIVISION

WASHINGTON, Oct. 7.—Contending that gas is more humane than shot or shrapnel in warfare, General William L. Sibert, chief of the chemical warfare division of the army, urged today before the house military affairs committee that provision in the army reorganization plans for the retention of this division as a permanent arm of the military service be made.

Jackson's
